1962.

THE PARLIAMENT OF THE COMMONWEALTH OF AUSTRALIA.

TAXATION STATISTICS 1959-60.

SUPPLEMENT TO THE FORTIETH REPORT TO PARLIAMENT OF THE COMMISSIONER OF TAXATION.

Presented pursuant to Statute, ordered to be printed, 10th April, 1962.

[*Cost of Paper:*—Preparation, not given; 905 copies; approximate cost of printing and publishing, £2,150.]

Printed and Published for the GOVERNMENT of the COMMONWEALTH OF AUSTRALIA by A. J. ARTHUR, Commonwealth Government Printer, Canberra.

(Printed in Australia.)

No. 32 [GROUP B].—F.7427/61.—PRICE 11s.

FOREWORD.

This volume of taxation statistics has been prepared as a supplement to the Fortieth Report to Parliament of the Commissioner of Taxation. In general, it contains statistics relating to the year 1959–60 for the various taxes administered by the Commissioner of Taxation. The levies and the periods to which the statistics relate are—

Income Tax and Social Services Contribution.

Assessment year 1959–60 (Income year 1958–59).

Also Final Tabulations (Individuals) for Assessment Year 1955–56 (Income Year 1954–55).

Sales Tax—Financial Year 1959–60.

Pay-roll Tax—Financial Year 1959–60.

Estate Duty—Assessments issued from 1st July, 1959, to 30th June, 1960.

Gift Duty—Assessments issued from 1st July, 1959, to 30th June, 1960.

Wool Tax—Financial Year 1959–60.

Stevedoring Industry Charge—Financial Year 1959–60.

Tobacco Charge—Financial Year 1959–60.

Canning-Fruit Charge—Financial Year 1959–60.

In previous years taxation statistics have been included as appendices to the Commissioner's Report to Parliament. However, due to the need to present the statistics in sufficient detail to meet the growing demand for them from government departments, academic bodies and private institutions, the Report has become somewhat unwieldy in size. Accordingly, it has been decided to reduce the size of the Report by presenting the statistics in a separate volume. It is hoped that this arrangement will, particularly in future years, meet the convenience of those who read the Report as well as those who use the statistics.

J. D. O'SULLIVAN,
Commissioner of Taxation.

1st June, 1961.

PART A. — INCOME TAX AND SOCIAL SERVICES CONTRIBUTION.

EXPLANATORY NOTES.

(i) Coverage.

Unless otherwise indicated, the statistics of income tax and social services contribution contained in Part A. have been extracted from 1958–59 returns of income which, generally speaking, were assessed in the following year, that is the 1959–60 assessment year.

For individuals, the main body of statistics relates to taxable returns for the income year 1958–59 assessed in the period 1st July, 1959, to 30th September, 1960, inclusive. Supplementary tabulations of assessments made after 30th September, 1960, will be included in a later volume of " Taxation Statistics ".

Supplementary tabulations relating to taxable returns for the income year 1954–55 assessed after 30th September, 1956, are included in this Part under the heading " Supplementary and Final Tabulations ".

For partnerships and trusts, the statistics relate to returns for the income year 1958–59 assessed in the period 1st July, 1959, to 30th September, 1960, inclusive.

For companies, the statistics relate to both taxable and non-taxable returns for the income year 1958–59 assessed in the period 1st July, 1959, to 31st December, 1960, inclusive. Supplementary tabulations of company assessments issued after the closing date of the " main " tabulations are not compiled but the number of such assessments is not significant.

Income tax statistics in all cases are extracted at the time of the preparation of the original assessments. Any amendments subsequently made to those assessments are not recorded for statistical purposes.

(ii) Coding.

(*a*) **Occupation Coding (Individuals).**—The coding by occupation classification for taxable individuals has remained the same since income year 1952–53. Details of this coding system are as follows:—

Not subject to provisional tax		Code 1
Subject to provisional tax—		
(*a*) With income from personal exertion other than salary or wages and—		
With salary or wages—no averaging	With or without income from property ..	Code 2
With salary or wages—with averaging		Code 3
Without salary or wages—no averaging		Code 4
Without salary or wages—with averaging		Code 5
(*b*) With income from property—		
With salary or wages and no other personal exertion income		Code 6
With no personal exertion income		Code 7

A taxpayer was classified as subject to provisional tax if his income from sources other than salary or wages was £100 or more.

The term " averaging " used in connexion with occupation codes 2–5 refers to returns of taxpayers deriving income from primary production which are assessed by reference to an average income as determined by Division 16 of Part III. of the Assessment Act. For the purposes of occupation coding a primary producer is regarded as being subject to averaging even though his average income and taxable income of the year exceed £4,000. If, however, a taxpayer elects under section 158A to withdraw from the operation of the averaging provisions, he is coded for occupation as " no averaging ". The election to withdraw from averaging first applied to the income of the year ended 30th June, 1952.

(*b*) **Industry Coding.**—Individual taxpayers subject to provisional tax and with income from personal exertion other than salaries or wages, that is taxpayers in occupation codes 2 to 5, have been coded to the industry which provided the main source of their other personal exertion income.

Partnerships and trusts have been coded to industry in a similar manner to individuals subject to provisional tax. Those deriving income solely from property have been coded as such while the remainder have been coded according to the main source of personal exertion income.

Companies have been coded to the industry which provided the main source of assessable income.

It is important to note that each taxpayer is coded to one industry only for statistical purposes.

(iii) Individuals.

(*a*) Income tax statistics for individuals included in this volume relate to taxable returns only—that is where taxable income for the year exceeded £104. Any net income received by individuals from partnerships or trusts has been included in the statistics for individuals. In a limited number of cases partnerships and trusts are liable to pay income tax. These cases are included in both the statistics for partnerships and trusts and for individuals. With the exceptions noted above the statistics for individuals do not include any amounts in respect of partnerships and trusts.

(*b*) **Sampling.**—Sampling techniques are used in the compilation of the statistics of returns of income of selected groups of resident salary and wage earners.

For the 1959–60 assessment year (1958–59 incomes), statistics of the following items were compiled for certain taxpayers in New South Wales, Victoria, Queensland, South Australia and Western Australia by sampling methods:—

- Actual income.
- Exempt income.
- Taxable income—
  - Salary or wages.
  - Total.
- Dependants.
- Deductions—
  - Life assurance, superannuation, &c., payments.
  - Net medical expenses.
  - Rates and taxes on non-income producing property.
  - Total.
- Net income tax and social services contribution assessed (excluding additional tax imposed as penalty).

The sample covered resident taxpayers classified as occupation code 1 (taxpayers deriving income not subject to provisional tax) whose actual income did not exceed the following limits:—

—	Actual Income.	
	Males.	Females.
	£	£
New South Wales	1,999	1,199
Victoria	1,999	1,199
Queensland	1,999	999
South Australia	1,999	999
Western Australia	1,999*	899

* Taxpayers in the actual income range £105–£199 were treated as complete extraction cases and placed with other complete extractions.

Statistics relating to these taxpayers are subject to sampling errors. For any figures shown in the income ranges concerned the sampling errors are small and may be ignored.

Statistics of taxpayers not subject to provisional tax are shown separately in Schedule No. 1 (3). However, a figure deduced by comparing figures shown in this or any other schedule may be subject to large sampling errors.

In the other schedules of this Part in which statistics of these taxpayers are included the sampling errors are reduced by the inclusion of statistics of returns not subject to sampling.

A sample survey was carried out also on assessments based on 1958–59 incomes of taxpayers subject to provisional tax and coded to primary production industry classification (other than sheep grazing and sheep/grain growing) and to occupation codes 6 and 7. Results of this survey are shown in Part K.

(iv) Partnerships and Trusts.

The net income of a partnership or trust is the assessable income, calculated as if the partnership or trust were a taxpayer, less all allowable deductions except concessional deductions and, in the case of a partnership, losses in respect of previous years. In certain circumstances losses of previous years of a trust are not allowable deductions if such losses are required to be met out of corpus. Net income

is the amount normally available for distribution to the partners or beneficiaries for inclusion as assessable income in their returns. In the special cases noted below the partnership or trust may be liable for tax on all or part of the net income.

A partner's share of the partnership loss incurred in the year of income is a deduction allowable to the partner.

Income tax returns are required to be lodged on behalf of partnerships and trusts; but they are not liable to pay tax except in certain specific circumstances. In the generality of cases, a partner is assessable on his individual interest in the partnership, and a beneficiary is assessable on the income from a trust to which he is presently entitled.

The *Income Tax and Social Services Contribution Assessment Act* provides that in certain cases a partnership or trust is liable to pay tax. The most important cases are set out below:—

(1) Where a partner is not in receipt and control of his share of the net income of the partnership (section 94).

(2) Where any beneficiary is presently entitled to a share of the income of a trust estate but is under a legal disability (section 98).

(3) Where there is no beneficiary presently entitled to part of the income of a trust estate (section 99).

(4) Where a revocable trust is created or where the income of a trust is payable or applicable to the benefit of the settlor's unmarried children under the age of twenty-one years (section 102).

Of the statistical items shown for partnerships and trusts only net income has been transferred to the returns of the partners and beneficiaries and included in the statistics for individuals. Taxable partnerships and trusts included in the statistics of partnerships and trusts are also included in the statistics for individuals if the assessments were issued by 30th September, 1960.

(v) Companies.

Statistics are given separately for:—

Private companies.
Non-private companies.
Special section assessments.
Default assessments.
Non-profit companies.
Co-operative companies.

Definitions of the above with the exception of non-private companies, are given below under "(vii) Explanation of Terms used." The term "non-private companies", as used in the tables, refers to cases not included in the other five categories.

(vi) Supplementary and Final Tabulations.

Final tabulations of 1955–56 assessments (income year 1954–55) are presented in Schedules Nos. 5 (1) to 5 (11) of this Part.

These final tabulations combine—

(*a*) "main" tabulations, that is, tabulations of assessments issued up to 30th September, 1956, and recorded in the Thirty-sixth Report to Parliament of the Commissioner of Taxation and

(*b*) supplementary tabulations of "late" assessments, that is, assessments issued subsequent to 30th September, 1956, and up to 30th June, 1959.

Assessments issued after 30th June, 1959, are not tabulated.

A description of the industry and occupation codings used in the tabulations of 1955–56 assessments is given on page 45 of the Thirty-sixth Report. These codings are also used in the tabulations of 1959–60 assessments (included this Part).

Although the same methods of coding were used for 1955–56 and 1959–60 assessments, any relationships between "main" and "final" tabulations deduced from Schedule No. 5 (11) of this Part cannot be used to derive the value of "final" tabulations in respect of 1959–60 assessments (income year 1958–59) as a general improvement in the rate of assessment of current returns has taken place since 1955–56.

(vii) Explanation of Terms used.

The following notes on various items in the Schedules of Part A are included as an aid to the interpretation of the statistics.

Assessment Act means the *Income Tax and Social Services Contribution Assessment Act* 1936–1959 and all references to sections, divisions, &c., in these notes are, unless otherwise indicated, references to that Act.

Actual Income .. .. Actual income is, briefly, gross income (including exempt income) less the expenses incurred in gaining that income. In the case of residents, actual income includes income from all sources, but, for non-residents, only income derived from sources in Australia is included.

For the 1959–60 assessment year (1958–59 income year) actual income consisted of taxable income plus rates and taxes on non-income producing property, gifts, one-third of the amount of calls paid to mining companies, deductions under sections 51A, 73, 73A, 74, 75, 76, 79A, 79B, 80, 82B, 82C, 82D, 82F, 82G, 82H, 82HA, 82J, 88 and 115 of the Assessment Act and exempt income.

Canadian Agreement—Article VII. (1) Article VII. (1) of the Agreement between Canada and Australia for the avoidance of double taxation provides that the amounts of Australian tax on certain dividends paid by a company which is a resident of Australia to a Canadian resident shall not exceed 15 per centum of the dividend.

Central Office .. .. Taxpayers who derive income (other than salary and wages and dividends) from more than one State and those whose income is derived wholly from sources out of Australia lodge their returns with this office. Residents of the Australian Capital Territory and persons whose income is derived wholly within the Territory are assessed in this office.

Certain Expenditure By Primary Producers Under sections 75 and 76 of the Assessment Act, deductions are allowed for expenditure incurred by a taxpayer carrying on a business of primary production in combating soil erosion; constructing dams, earth tanks, levee banks, irrigation channels; sinking bores or wells; exterminating pests; clearing, suckering, ploughing, grassing, draining, &c.; and in purchasing wire or wire netting and placing it on a fence for protection against animal pests.

Concessional Deductions .. Concessional deductions are those allowed under sections 82B to 82J of the Assessment Act. Dependants in respect of whom a taxpayer is allowed a concessional deduction are classified according to the maximum deduction allowable thus (for income year 1958–59):—

Maximum deduction £143:—spouses, parents, parents-in-law, housekeepers and daughter-housekeepers.

Maximum deduction £91:—first children, invalid relatives and student children.

Maximum deduction £65:—other children.

It should be noted that for the 1957–58 and subsequent income years deductions for dependent parents were extended to parents-in-law. In addition the definition of " child " for income tax purposes was expressed to include an adopted child, step-child or ex-nuptial child of the taxpayer.

A case is recorded for statistical purposes if the deduction allowed in the taxpayer's assessment amounts to more than half of the maximum deduction allowable.

Co-operative Company .. A co-operative company is defined in section 117 of the Assessment Act. Broadly a co-operative company is one in which the number of shares held by one person is limited, shares are not quoted on the Stock Exchange, and business is carried on primarily for one or more of the following purposes:—

(*a*) the acquisition of commodities or animals for disposal or distribution among its shareholders;
(*b*) the acquisition of commodities or animals from its shareholders for disposal or distribution;
(*c*) the storage, marketing, packing or processing of commodities of its shareholders;
(*d*) the rendering of services to its shareholders;

(*e*) the obtaining of funds from shareholders to lend to other shareholders to enable them to acquire land or buildings to be used for the purpose of residence or of residence and business.

Default Assessment .. Under section 167 of the Assessment Act the Commissioner may make an assessment of the amount on which, in his judgment, income tax ought to be levied. This section may be applied when a return is not lodged or an unsatisfactory return is lodged.

Dental Expenses.. .. Medical expenses allowable as deductions under section 82F of the Assessment Act include payments to a dentist by a taxpayer for dental treatment, or the supply of artificial teeth for himself or certain dependants—to a maximum of £30 per person.

Depreciation—

Depreciated Value .. Broadly the depreciated value of a unit of plant is its cost price less the total depreciation deductions allowed or allowable in respect of that unit and less any balancing charge adjustment.

A balancing charge is, briefly, the excess of any consideration received on the disposal of plant over its depreciated value, but not exceeding the depreciation allowed or allowable on that unit of plant.

As from the 1957–58 income year, a taxpayer is afforded a choice between the inclusion of a balancing charge in his assessable income of the year in which the asset is disposed of, or the deduction of a corresponding amount from the value of the replacement asset or other assets in respect of which he is entitled to depreciation. When the latter course is chosen, depreciation allowances on the asset or assets against which the balancing charge is set-off are calculated on the reduced value and the depreciated value is correspondingly reduced.

Depreciation Allowed .. Two methods of calculating depreciation are used—Prime Cost and Diminishing Value. Under the first method, the same amount is allowable as a deduction each year; the amount being a fixed percentage of the cost price of the asset reduced when necessary by any balancing charge adjustment. Under the Diminishing Value method, a reducing amount is allowable as a deduction each year; the amount being a percentage of the depreciated value of the asset.

The rate of depreciation allowed under the diminishing value method is one and one-half times the rate under the prime cost method.

A special rate of 20 per cent. was allowed on the cost of certain assets (excluding motor cars) used wholly and exclusively in agricultural, pastoral, fishing and pearling pursuits.

Depreciable Assets Purchased Depreciable assets purchased during the year include assets on which depreciation is allowed for the first time irrespective of whether the asset was purchased or acquired during the current or an earlier income year. It excludes replacements for which a complete deduction is allowed but includes improvements provided by primary producers for the accommodation of employees, tenants or share-farmers. The amount shown is the value upon which depreciation is allowed.

Disposal of Assets .. Amounts shown under "depreciable assets disposed of during year", represent consideration received for depreciable assets which have been disposed of, lost or destroyed during the year—but not including any consideration in excess of the depreciated value of those assets.

Dividends—

Exempt .. .. This item includes dividends paid out of exempt income, or from profits arising from the re-valuation of assets not acquired for re-sale at a profit and dividends which are tax-free by virtue of section 107.

Included in Assessable Income This item consists of the gross amount of dividends included in the assessable income and includes assessable bonus shares but excludes exempt dividends.

Subject to Rebate .. Under section 46 of the Assessment Act a rebate of tax is allowed in respect of dividends included in the taxable income of a company which is a resident of Australia. The United Kingdom Agreement, the United States Convention and the Canadian Agreement limit the tax payable on certain dividends paid to residents of those countries.

Division 7	Under Division 7 of Part III. of the Assessment Act private companies are liable for additional tax if there is an insufficient distribution of taxable income by way of dividends. For the 1958–59 income year the tax on the " undistributed amount " as defined, was imposed at the rate of 10s. in the £1. The undistributed amount is the amount by which the sum of the dividends paid by the company within the prescribed period and the retention allowance fall short of the distributable income. The distributable income is, broadly, the amount ascertained by deducting from the taxable income the normal tax payable in respect of that income and the amount of any net loss incurred outside Australia.
Education Expenses ..	Under section 82J of the Assessment Act a deduction is allowed for payments made for recognized school uniforms, fees, books, fares and other expenses necessarily incurred in connexion with the full-time education, at a school, college or university or from a tutor, of the taxpayer's children or dependants under 21 years of age, up to a maximum of £100 for each child or dependant.
Exempt Income	A number of sections of the Assessment Act provide for the exemption of certain types of income, e.g., sections 23, 23A, 23C and 23D. Exempt income includes exempt dividends and income from gold-mining in Australia and New Guinea.
First Child	For the 1958–59 income year a maximum deduction of £91 was allowable for one dependent child under sixteen years of age.
Government Loan Interest	The interest on Commonwealth Loans issued since 1st January, 1940 is taxable at current rates. The taxpayer is entitled, however, to a rebate of tax of 2s. for each £1 of such interest included in his taxable income.
Interest paid on Debentures	This item includes all payments of interest made during the year of income on loans raised by the issue of debentures, notes, &c. It does *not* include interest paid on mortgages, money held on deposit or bank overdraft.
Net Medical Expenses ..	This item represents the amount of gross medical, dental, optical, funeral expenses, &c., less any amounts recouped by a government, public authority, society or association, subject to the general maximum of £150 per person (including dental £30) in the case of medical expenses and £30 in the case of funeral expenses.
Net Tax	Net tax is ascertained by deducting from the tax otherwise payable, the amount of any rebates arising from the assessment.
Non-profit Company ..	A non-profit company is a company which is not carried on for the purpose of profit or gain to its individual members. The terms of the memorandum or articles of association, rules or other documents constituting the company or governing its activities, must prohibit it from making any distribution in money, property or otherwise to its members. Statistics of non-profit companies include assessments of friendly society dispensaries.
Non-taxable Companies ..	Companies are ordinarily non-taxable if their taxable income is less than £1 or if they are allowed rebates which equal or exceed the tax and contribution otherwise payable. Non-profit companies or companies in the capacity of trustees are non-taxable if their taxable income does not exceed £104. Private companies are non-taxable under Division 7 of Part III. of the Act if they make a sufficient distribution. A sufficient distribution is made if the amount paid in dividends during the prescribed period is not less than the excess of the distributable income over the retention allowance. (*See* Division 7 above.)
Other Children	For the 1958–59 income year, a maximum deduction of £65 was allowable for each dependent child under sixteen years of age other than the child for whom a deduction of £91 was allowed.
Pension Funds	Contributions to pension funds established for the benefit of employees (or the dependants of employees) are allowable deductions in certain circumstances in terms of sections 66 and 79.
Private Company ..	A private company is defined in section 105 of the Assessment Act. In broad terms a private company is one in which the public is not substantially interested. If a company's shares are quoted on the Stock Exchange or if the company is a subsidiary of a public company it is not regarded as a private company.

Provisional Tax	Individuals are classified as subject to provisional tax if their income from sources other than salary or wages is £100 or more.
Rates and Taxes on Non-Income Producing Property.	Where the taxpayer is personally liable, a deduction is allowed for rates assessed annually and for land taxes. The amounts shown represent deductions allowable in respect of property not used by the taxpayer in the production of assessable income.
Resident	A resident is defined in section 6 of the Assessment Act. Briefly "resident" or "resident of Australia" means— (*a*) a person, other than a company, who resides in Australia; (*b*) a company which is incorporated in Australia, or which, not being incorporated in Australia, carries on business in Australia, and has either its central management and control in Australia, or its voting power controlled by shareholders who are residents of Australia.
Retention Allowances ..	*See also* "Division 7". The retention allowance represents income which a private company may retain in its business without incurring a liability for additional tax under Division 7. The rates of retention allowance for the income year 1958–59 were as follows:—

Dividends from other private companies included in the distributable income	Nil
Other income from property included in the distributable income	10 per cent.
Other income included in the distributable income—	
On the first £1,000	50 per cent.
On the second £1,000	40 per cent.
On the remainder	35 per cent.

For income years prior to 1958–59 the rates of retention allowance on income from property were as shown above. For income, other than from property, included in the distributable income, however, the rates were as follows:—

On the first £1,000	50 per cent.
On the second £1,000	40 per cent.
On the third £1,000	35 per cent.
On the fourth £1,000	30 per cent.
On the remainder	25 per cent.

Salary and Wages ..	This income consists of salary, wages, commission, bonuses or allowances paid to an employee as such and includes directors' fees, superannuation and pension payments and any payments made under a contract which is substantially for the labour of the person to whom the payments are made.
Section 46	Rebate on dividends received by a resident company.
Section 51A	Living-away-from-home allowance.
Section 66	Deduction for contributions to pension funds for the benefit of employees of the taxpayer.
Section 73	Deduction for subscriptions to trade, business or professional associations.
Section 73A	Deduction for expenditure on scientific research.
Section 74	Deduction for the election expenses of a candidate for Parliament.
Section 75	Deduction for certain expenditure on land used for primary production — *See* explanatory note "Certain Expenditure by Primary Producers."
Section 76	Deduction of expenditure on wire and wire netting — *See* explanatory note "Certain Expenditure by Primary Producers."
Section 78	Deduction for gifts, one-third of calls paid to mining, prospecting and afforestation companies, and payments of pensions to employees, &c.
Section 79	Deduction for contributions to pension funds for the benefit of employees of persons other than the taxpayer.
Section 79A	Deduction for residents of isolated areas, viz., Zone A and Zone B.
Section 79B	Deduction for members of the Defence Force serving overseas.
Section 80	Deduction for losses incurred within previous seven years.
Section 82B	Deduction for spouse, daughter-housekeeper, children under sixteen years of age, student children and invalid relatives.
Section 82C	Deduction for parents and parents-in-law of taxpayer.

Section 82D	Deduction for housekeeper.
Section 82F	Deduction for medical, dental expenses, &c.
Section 82G	Deduction for funeral expenses.
Section 82H	Deduction for life insurance premiums, &c.
Section 82HA	Deduction for payments to medical and hospital benefits funds.
Section 82J	Deduction for education expenses.
Section 88	Deduction to lessee.
Section 115	Deduction of three per cent. of calculated liabilities of life assurance company.
Section 160AB	Rebate on Government Loan Interest. *See* under " Government Loan Interest ".
Special Section Assessments	Statistics of special section assessments include assessments made under the following sections of the Assessment Act:— Section 125—Tax payable on interest paid by a company to a non-resident. Section 126—Tax payable on interest paid by a company on bearer debentures. Section 129—Determination of taxable income of oversea shipowners or charterer. Section 136—Determination of taxable income of Australian business controlled abroad. Section 137—Determination of taxable income of non-resident derived from film business carried on in Australia and controlled abroad. Section 143—Determination of taxable income of non-resident insurer. Section 148—Reinsurance with non-residents. Section 219—Authority to make consolidated assessments where several persons are agent for a non-resident. Section 255—Person in receipt or control of money for non-resident liable to pay tax. Section 256—Person paying royalty to a non-resident taxpayer to retain tax from such payments.
Stock on Hand	Trading stock on hand at the beginning and end of the year of income is valued at the option of the taxpayer at (*a*) cost price, or (*b*) market selling value, or (*c*) the price at which the stock can be replaced. Stock at the end of one year may be valued on a different basis from that adopted at the end of the previous year, but the stock on hand at the beginning of the year is brought to account at the figure at which it was valued at the end of the previous year. Statistics of values of stock on hand exclude the value of live-stock.
Student Children ..	For the 1958–59 income year, a maximum deduction of £91 was allowable for each child from 16 to 21 years receiving full-time education at a school, college or university.
Taxable Income	Taxable income is the amount remaining after deducting from the assessable income all allowable deductions.
Taxpayer	A person, including a company, deriving income.
Total Deductions ..	For the 1958–59 income year, this item consisted of rates and taxes on non-income producing property, gifts, one-third of the amount of calls paid to mining companies and deductions under sections 51A, 73, 73A, 74, 79A, 79B, 80, 82B, 82C, 82D, 82F, 82G, 82H, 82HA, 82J, 88 and 115 of the Assessment Act. Deductions under sections 75 or 76 are not included.
United Kingdom Agreement —Article VI. (3)	Article VI. (3) of the Agreement between the United Kingdom and Australia for the avoidance of double taxation provides that the tax on certain dividends paid to United Kingdom residents out of profits derived from sources in Australia shall not exceed half the amount of Australian tax normally payable.
United States Convention—Article VII. (1)	Article VII. (1) of the Convention between the United States of America and Australia for the avoidance of double taxation provides that the amount of Australian tax on certain dividends paid by a company which is a resident of Australia to a United States resident shall not exceed 15 per centum of the dividend.

INCOME TAX AND SOCIAL SERVICES CONTRIBUTION.

COMMONWEALTH—INDIVIDUALS—RESIDENTS AND NON-RESIDENTS—TAXABLE.

INCOME DISTRIBUTION OF NUMBER OF TAXPAYERS, ACTUAL INCOME, TAXABLE INCOME AND NET TAX, BY SEX.

NOTE.—In the above table the statistics (other than number of taxpayers) for actual incomes between £105 and £1,999 include statistics derived by sampling methods and are subject to sampling errors. For any figure shown in these ranges of income the sampling errors are small and may be ignored. However, a figure deduced by comparing figures shown in this or any other Schedule may be subject to large sampling errors. See also page 8.

PART B.—SALES TAX.

EXPLANATION OF TERMS USED.

Exempt Sales	This item covers the value of sales of goods specifically exempt from sales tax, and of goods, normally subject to tax, sold to exempt bodies or for an exempt use. As returns are not required regularly from persons dealing wholly in exempt goods, the coverage of this item varies from year to year as exemptions have been withdrawn or extended.
Gross Non-taxable Sales	The amount of gross non-taxable sales represents the total value of sales of goods, not being goods exempt from sales tax, which have not borne sales tax because the tax will be levied at a later stage of distribution. For example, in the case of a manufacturer selling goods to a wholesaler who in turn will resell them to a retailer, the manufacturer does not pay tax in respect of this sale, even though the goods may not be exempt from tax, because the tax will be levied at the point of sale from the wholesaler to the retailer.
Gross Taxable Sales ..	The amount of gross taxable sales represents the total sale value on which sales tax is payable.
Net Taxable Sales ..	The amount of net taxable sales is the amount remaining from gross taxable sales after adjustments have been made for discounts, goods returned, bad debts and other adjustments.

(*a*) Includes outstanding debits at previous 30th June.

* The difference between these figures and collections—£49,618,891 for 1958–59 and £55,161,359 for 1959–60—represents amounts of refunds credited before but paid after 30th June.

PART D.—ESTATE DUTY.

EXPLANATION OF TERMS USED.

Dutiable Value .. This is the amount on which duty is calculated. It is the amount remaining after deducting from the net value of the estate the exempt estate (e.g. gifts to certain charitable institutions) all allowable deductions and the statutory exemption.

Industry .. .. Estates have been coded to the industry in which the deceased was last gainfully occupied during his lifetime. Where the deceased was engaged in more than one industry at death the estate has been coded to the predominant industry as disclosed by assets of the estate.

Net Value of Estate .. This amount represents the gross value of the estate as assessed (including exempt estate) less debts and other liabilities of the deceased person (including income tax and land tax to the date of death).

Rebates .. .. A rebate of estate duty may be allowable—

(*a*) where a gift of property which is liable for gift duty is also included in the estate of the donor (Section 8 (6));

(*b*) when duty is paid outside Australia in respect of any part of the estate situate outside Australia (section 8 (7));

(*c*) if the deceased was a beneficiary in an estate (upon which duty is payable or has been paid) of a person who pre-deceased him by not more than 5 years (section 8A).

Statutory Exemption .. The law provides for diminishing statutory exemptions which relieve small estates from duty and provide a measure of discrimination in favour of estates passing to close relatives.

These exemptions, at present, are as follows:—

(*a*) Where the whole of the estate passes to the widow, widower, children or grandchildren of the deceased—£5,000, decreasing by £1 for every £3 by which the value of the estate exceeds £5,000.

(*b*) Where no part of the estate passes to the above relatives—£2,500, decreasing by £1 for every £3 by which the value of the estate exceeds £2,500.

(*c*) Where part only of the estate passes to the above relatives—an amount calculated proportionately under (*a*) and (*b*) above.

Special exemptions are also allowed in respect of estates of defence personnel who die on active service or from injuries received or diseases contracted while on active service.

ESTATE DUTY.

ASSESSMENTS ISSUED FROM 1st JULY, 1959 TO 30th JUNE, 1960.

(*a*) Including outstanding debits at previous 30th June.

* The difference between these figures and collections—£13,308,744 for 1958–59 and £13,752,610 for 1959–60—represents amounts of refunds credited before but paid after 30th June.

PART E.—GIFT DUTY.

EXPLANATORY NOTES.

Gift duty is payable if the value of a gift exceeds £2,000 or if the aggregate value of all gifts made by the same donor within a period of eighteen months before and after making the subject gift exceeds £2,000. Assessments recorded in grades of value of assessment up to £1,999 are for gifts which together with other gifts made in the prescribed period exceeded £2,000 in value.

The rate of gift duty is determined by the aggregate value of all gifts made in the prescribed period. Where a subsequent gift occasions a change in the rate of duty applied to a previous gift, already assessed, an amended assessment is issued. Such amendments, however, are not accounted for in the statistics.

GIFT DUTY.

ASSESSMENTS ISSUED FROM 1st JULY, 1959 TO 30th JUNE, 1960.
