DrinkingWater	DrinkingWater	Is potable(drinking) water available
SanitaryDisposal	SanitaryDisposal	Is there a sanitary disposal bin
MensPadDisposal	-	Is there a men's pads disposal bin
Shower	Showers	Is there a shower in this facility

Notes

For version 5, Toilet Map data has been reorganised around locations that can have one or more of four facility types - Adult change, Baby change, Dump points and Toilets - each with their own attributes, such as Ambulant or BYOSling.

All new flags (BYOSling, DPWashout, ...) will be set to FALSE. Until we have sufficient updates from the relevant information providers, only rely on this information if it is set to TRUE. Currently, we do not display these flags on the Toilet Map unless set to TRUE.

There may be some inconsistencies in new facility notes as we work through the data moving text to the most appropriate note.

A number of fields that are no longer used are listed below.

<i>No longer used</i>	<i>Notes</i>
Postcode	No longer used
AccessibleParkingNote	Merged into Parking note
Icon URL	No longer available
IconAltText	
Status	No longer available
AccessLimited	Merged into Access note
Accesible Male	Merged into Accessible flag
AccessibleFemale	
AccessibleUnisex	
ToiletType	No longer used
Notes	Merged into facility notes
AccessibleNote	
IsOpen	Merged into OpeningHours
