† Includes collections from trustees of superannuation funds liable for tax under the provisions of Division 9B of Part III of the Income Tax Assessment Act: 1974-75, \$1 791 827; 1975-76, \$3 475 960; 1976-77, \$3 717 969.

**PART A. INCOME TAX  
EXPLANATORY NOTES  
STATISTICS OF ASSESSMENTS**

The statistics of income tax assessments in this volume have been compiled mainly from 1975-76 income year returns, most of which were assessed in the financial year 1976-77.

The 1975-76 income year statistics of taxable individuals were obtained from returns assessed between 1 July 1976 and 30 June 1977.

The partnership and trust statistics relate to returns for the 1975-76 income year assessed in the period 1 July 1976 to 31 August 1977.

The statistics of companies relate to both taxable and non-taxable returns for the 1975-76 income year assessed in the period 1 July 1976 to 30 November 1977.

The Division 7 statistics were obtained from certain section 104 assessments made to private companies in respect of their 1974-75 income and issued up to 30 June 1977.

The superannuation fund statistics relate to taxable funds for the 1975-76 income year assessed during the period 1 July 1976 to 30 November 1977.

The numbers and net tax in respect of assessments of 1975-76 income year returns of taxable individuals and companies that were issued up to 30 June 1978 and were not included in Schedule 1.2 in this volume are summarized below:

	<i>Number</i>	<i>Net tax</i>
Individuals—		\$'000
Occupation 1 .. .. .	101 929	168 441
Occupations 2 and 3 .. .. .	73 884	172 948
Companies. . . . .	1 232	19 431

Schedules 1.1 and 1.3 to 1.12 relate to assessments in respect of which items in addition to those included in Schedule 1.2 were available. The residential post code dissection in Schedule 1.12 is deficient in that 170 172 assessments assessed in South Australia were not allocated to post codes. These account for the bulk of the cases in the not stated group.

Income tax statistics in Part A relate only to original returns and assessments; no adjustment for amendments to assessments is made in these statistics.

The classification 'office' used in this volume indicates State of location of the branch office in which the returns were assessed. However, returns of Northern Territory taxpayers were assessed in South Australia.

**Individuals**

*General*—Taxable returns of individuals for which statistics are presented in this volume, are those in which the taxable income exceeded \$1040 and the tax assessed was not extinguished by rebates. For the 1975-76 income year resident individuals generally were not liable to tax unless the taxable income exceeded \$2518 due to the extent of the general concessional rebate of \$540. For convenience, assessments of those trusts for which the trustees are liable to pay income tax, have been included with the statistics of individual taxpayers.

Apart from the item 'Net income from partnerships and trusts' the details from taxable trusts referred to above and part of 'Deductions—section 75A' (where the expenditure was incurred by a partnership but allowed only as a deduction in the returns of the individual partners), the statistics of individuals do not otherwise include any amounts relating to partnerships or trusts.

*Occupation coding*—The occupation classification for taxable individuals adopted for the 1975–76 income year was as follows:

*Occupation 1*—taxpayers with income only from:

- (a) salary and wages, or
- (b) salary and wages with net property income less than \$400.

*Occupation 2*—taxpayers with income only from:

- (a) property, or
- (b) salary and wages with net income from property of \$400 or more.

*Occupation 3*—taxpayers with net income or loss from business (including profit or loss on the sale of real estate, shares, etc.).

*Industry coding*—For the 1975–76 income year taxpayers with income or a loss from a business were coded to the industry from which they derived the greatest business income or incurred the smallest business loss.

*Sampling*—For the 1975–76 income year most items in respect of all taxable individuals were completely enumerated. However, some income and deduction items of taxpayers in Occupations 2 and 3 with incomes less than \$32 000 were obtained from a stratified sample by grade of net income and fine industry. As a result of the expansion the items concerned will be subject to some sampling error. However, the sample included more than 76% of the relevant population. The sampled items are as follows:

1. Salary and wages included in assessable income
2. Total business income
3. Salaries and wages paid
4. Depreciation
5. Deductions—section 75A
6. Investment allowance
7. Net business income
8. Net partnership and trust income
9. Profit or loss from sale of real estate etc.
10. Gross rents
11. Deductions relating to property income
12. Other business income
13. Gross sales
14. Purchases
15. Stock at beginning
16. Stock at end
17. Purchases of depreciable assets
18. Disposals of depreciable assets

19. Interest and dividends received
20. Subscriptions to trade unions
21. Gifts—building funds
22. Gifts—other
23. Housing loan interest
24. Living-away-from-home deduction
25. Expenditure relating to other allowances
26. Other deductions

### **Companies**

Statistics are given separately for—

Private companies—

Normal tax

Division 7

Public companies

Special section assessments

Non-profit companies

Co-operative companies.

Definitions of the above, with the exception of public companies, are given below under 'Explanation of Terms used'. The term 'public companies', as used in the tables, refers to cases not included in the other four categories.

Companies have been coded to the industry which provided the main source of assessable income.

### **Superannuation Funds**

Statistics of superannuation funds relate to all superannuation funds whose trustees were liable to be assessed and pay tax on all or part of certain income of the funds for the 1975-76 income year, in accordance with the provisions of sections 121CA, 121CB, 121D and 121DA of the Assessment Act.

The statistics of taxable funds are classified by grade of total assets, type of fund and office of assessment. The assets to which these statistics relate do not include life insurance policies.

### **STATISTICS OF AMOUNT DEBITED, AMOUNT CREDITED AND AMOUNT OUTSTANDING—SCHEDULE 5.1**

This schedule summarises all debit and credit postings to the Australian Taxation Office income tax revenue account for the financial years 1975-76 and 1976-77. The amount debited includes:

- tax and additional tax outstanding at the beginning of the year;
- debts raised on original assessments;
- net amended assessments issued;
- net variations in respect of self assessment of provisional tax; and
- additional tax charged for late lodgment of returns, late payment and understatement of taxable income.

The principal credit items are:

net cash payments including payments in advance; and  
instalment tokens applied to tax.

The schedule is classified by State of office of assessment. The amounts shown are arrived at after allowance for transfers of amounts between offices where, for example, payments are made in one office in respect of amounts debited in another office.

### EXPLANATION OF TERMS USED

The following notes on various items in the schedules of Part A are included as an aid to the interpretation of the statistics. In some cases, the definitions used may differ slightly from those used in prior years. When comparisons are made between years, regard should be had to definitions of terms for the particular years to which the statistics relate.

Assessment Act means the *Income Tax Assessment Act* 1936, and all references to sections, divisions, etc., in these notes are, unless otherwise indicated, references to that Act.

Additional tax—See Division 7.

- Calls paid to afforestation companies      This item includes deductions allowed under section 78 (1) (b) for calls paid to afforestation companies.
- Commonwealth securities      Bonds, debentures, stock or other securities issued under an Act but not including securities issued in respect of a loan raised outside Australia unless there is in force a declaration by the Treasurer, published in the *Gazette*, that those securities shall be Commonwealth securities for the purposes of the Act.
- Concessional expenditure rebate      The general concessional rebate of \$540 allowable to all taxpayers and a rebate of 40% of concessional expenditure in excess of \$1350 for a taxpayer. The items of expenditure subject to rebate are as follows:
- Medical expenses
  - Funeral expenses (maximum \$100)
  - Life insurance premiums
  - Superannuation payments, etc. (maximum \$1200)
  - Payments to medical and hospital benefit funds
  - Education and self education expenses (maximum \$250 per student)
  - Rates and land taxes (maximum \$300)
  - Calls on afforestation shares
  - Adoption expenses.
- The detailed statistics relating to concessional expenditure are available only where the taxpayer's total concessional expenditure exceeded \$1350.

- Contributions** .. In relation to a superannuation fund this means contributions from employers, employees and self-employed persons.
- Co-operative company** A co-operative company is defined in section 117 of the Assessment Act. Broadly, a co-operative company is one in which the number of shares held by one person is limited, the shares are not quoted on the Stock Exchange and the business is carried on primarily for one or more of the following purposes:
- (a) the acquisition of commodities or animals for disposal or distribution among its shareholders;
  - (b) the acquisition of commodities or animals from its shareholders for disposal or distribution;
  - (c) the storage, marketing, packing or processing of commodities of its shareholders;
  - (d) the rendering of services to its shareholders;
  - (e) the obtaining of funds from shareholders for the purpose of making loans to its shareholders to enable them to acquire land or buildings to be used for the purpose of residence or of residence and business.
- Deductions relating to property income** This item includes expenses incurred in deriving income from rents, dividends and interest such as rates and taxes on rented properties, repairs, insurance premiums, interest, commission, etc.
- Deemed distribution—**
- Section 106** .. See 'Excess distribution'.
- Dependants** .. Dependants in respect of whom the taxpayer is allowed concessional rebates. Maximum rebate; spouse, parent, parent-in-law and daughter-housekeeper, \$400; one child, invalid relative and student, \$200; other children (not being students), \$150;
- The definition of 'child' for income tax purposes includes an adopted child, step-child or ex-nuptial child of the taxpayer.
- Depreciation—**
- depreciated value** .. Broadly, the depreciated value of a unit of plant is its cost price (as reduced by any balancing charge adjustment) less the total amount of depreciation allowed or allowable in respect of that unit.
- A balancing charge is, briefly, the excess of any consideration received on the disposal of plant over its depreciated value, but not exceeding the depreciation allowed or allowable on that unit of plant.

Depreciation—*continued*

A taxpayer is afforded a choice between the inclusion of a balancing charge in his assessable income of the year in which the asset is disposed of, or the deduction of a corresponding amount from the value of the replacement asset or other assets in respect of which he is entitled to depreciation. When the latter course is chosen, the cost or the depreciated value is reduced and depreciation allowances on the asset or assets against which the balancing charge is set-off are calculated on the reduced value.

depreciation allowed Two methods of calculating depreciation are used—Prime Cost and Diminishing Value. Under the first method, the same amount is allowable as a deduction each year, the amount being a fixed percentage of the cost price of the asset reduced when necessary by any balancing charge adjustment. Under the diminishing value method, a reducing amount is allowable as a deduction each year, the amount being a percentage of the depreciated value of the asset.

The rate of depreciation allowed under the diminishing value method is one and one-half times the rate under the prime cost method.

This item includes depreciation at double the normal rates which was allowable for certain units of plant owned by manufacturers and primary producers that were first used or installed ready for use between 1 July 1974 and 30 June 1975 (section 57AC).

A special rate of 20 per cent was allowed on expenditure incurred on the cost of certain assets (excluding motor cars) on or before 2 August 1973 used wholly and exclusively in agricultural, pastoral, fishing and pearling pursuits (section 57AA).

depreciable assets purchased For individuals, partnerships and trusts the amount shown represents the cost of depreciable assets purchased less the amount of any balancing charge offset against the cost of those assets. For companies the amount shown is the cost of the assets purchased before offsetting any amount of balancing charge. Where an asset is used partly for private purposes the cost of that asset is for statistical purposes reduced proportionately.

depreciable assets disposed of during year For companies, disposals of assets include any amounts of balancing charges offset against the value of new or existing assets. For individuals, partnerships and trusts, disposals of assets do not include balancing charges offset against the value of other assets. However, purchases of depreciable assets have been reduced to the extent to which balancing charges have been offset against the cost of those purchases.

Distributable income .. See Division 7.

Dividends—

exempt .. .. This item included dividends paid out of exempt income, or from profits arising from the sale or re-valuation of assets not acquired for re-sale at a profit and dividends which are tax-free by virtue of section 107.

included in assessable income This item consists of the gross amount of dividends included in the assessable income and includes assessable bonus shares but excludes exempt dividends.

paid during the prescribed period See Division 7.

subject to rebate .. Under section 46 of the Assessment Act a rebate of tax is allowed in respect of dividends included in the taxable income of a company which is a resident of Australia.

Division 7 .. .. Under Division 7 of Part III of the Assessment Act, private companies are liable for additional tax if there is an insufficient distribution of taxable income by way of dividends. Tax on the undistributed amount as defined, is imposed at the rate of 50 per cent. The undistributed amount is the amount by which the sum of the dividends paid or deemed to have been paid by the company within the prescribed period (i.e., the period of one year commencing 2 months before the end of the year of income or such additional period as is allowed by the Commissioner) and the retention allowance falls short of the distributable income. The distributable income is, broadly, the amount ascertained by deducting from the taxable income the normal tax payable in respect of that income and the amount of any net loss incurred outside Australia.

Education expenses .. Rebatable expenditure under section 159T. Maximum of \$250 allowable for each dependant or child of the taxpayer under 25 years of age for expenses in connection with full-time education. Where two or more taxpayers are entitled to rebatable expenditure in respect of the one student, the total of such rebatable expenditure may not exceed \$250 in respect of that student.

Excess Distribution .. See Division 7. This item represents dividends paid by private companies, within the prescribed period or such additional period as is determined by the Commissioner, in excess of a sufficient distribution for the purposes of Division 7. The excess distribution is deemed to be a dividend paid in the prescribed period of the next succeeding income year.

- Exempt Income .. A number of sections of the Assessment Act provide for the exemption or part exemption of certain types of income (cf. sections 23, 23AA, 23AB, 23AC, 23AD, 23C, 23D, 23E, 23F, 23G, 44, 97, 107, 111 and 112A). Income derived by non-residents wholly outside Australia (section 23 (q)) and premiums received by life insurance companies are not treated as exempt income for statistical purposes. Exempt income includes exempt dividends and income from gold-mining in Australia and Papua New Guinea.
- Expenditure section 75A Deductions allowed under section 75A of the Assessment Act for expenditure incurred by a taxpayer carrying on a business of primary production in respect of eradication of pests, destruction of timber, scrub and weeds, preparation of land for agriculture and grazing, draining land, combating soil erosion and conserving or conveying water. The relevant expenditure is deductible over ten years and the deductions do not apply in relation to the calculation of the net income or loss of a partnership.
- Export market development expenditure Expenditure in respect of which rebates were allowable under section 160AC.
- Family partnerships .. Partnerships were classified as family partnerships where partners shared the same surname.
- Gifts .. .. Deductions under section 78 (1) (a) for gifts of \$2 and upwards to various specified institutions and to public hospitals, public benevolent institutions and public educational and research institutions.
- Gross rents, premiums, etc. This item includes gross rents in payment for the lease of property (section 25 (1)) and premiums received which relate to a grant or assignment of a lease of property that was not, at the time of the grant or assignment of the lease, intended by the grantee or assignee, to be used for producing assessable income (section 26AB).
- Gross sales .. .. This item consists of gross sales of trading stock and includes goods taken for the use of taxpayers, their families or employees. It excludes sales of wool, sheep, produce and livestock, sales of property such as land, buildings, shares and other securities, patents and copyrights, sales of services and sales tax.
- Housekeeper .. Person in respect of whom a rebate is allowed under section 159L—maximum rebate \$400.

- Housing loan interest .. A deduction relating to interest paid by a resident taxpayer on loan moneys used by the taxpayer to purchase, construct or extend a house, flat or home unit used during the year of income as his or her sole or principal residence in Australia. Where the taxpayer's net income (or the combined net income of a husband and wife) did not exceed \$4000 the whole of the interest paid was allowable. Where the net income (or combined net income) exceeded \$4000 the amount otherwise allowable was reduced by 1 per cent for each \$100 of the excess of the net income over \$4000.
- Interest—
- allowed, total .. Interest incurred in respect of money borrowed for the purpose of gaining or producing assessable income.
- government loan interest .. The interest on Commonwealth Loans issued since 1 January 1940 is taxable at current rates. The taxpayer is entitled, however, to a rebate of tax of 10c for each \$1 of such interest on loans issued before 1 November 1968 included in his taxable income.
- other .. .. Total interest other than government loan interest.
- International Agreement credits .. These are credits allowed under Double Taxation agreements which provide that, where income is derived in one of the contracting countries, that country has the primary right to tax the income. The other contracting country, the country of residence, has also a right to tax that income but, if it does so, it is required to allow a credit in respect of tax paid in the country of origin of the income.
- Investment allowance .. Special deductions equal in amount to 20 per cent of the cost of new manufacturing and primary production plant allowable under sections 62AA and 62AB respectively. The section 62AA deduction did not apply in respect of manufacturing plant purchased after 3 February 1971 unless the contract for purchase was made on or before that date. This deduction was restored on 14 February 1972, and both sections 62AA and 62AB, were withdrawn with effect from 22 August 1973. Investment allowance—Special deductions in respect of certain expenditure on units of new plant and machinery costing more than \$500 incurred on or after 1 January 1976. The deduction allowable for 1975–76 income year was 40% of the expenditure where the cost of the unit exceeded \$975, the percentage shading-in from nil at \$500 to 40% of \$976.
- Investment income .. The amount that would be the assessable income of a superannuation fund to which section 121D applies if it were an ordinary taxpayer, less the deductions (other than concessional deductions) that would normally be allowable in respect of that income.

Life insurance and superannuation payments		Rebatable expenditure allowable under section 159R—maximum allowable \$1200 per taxpayer.
Losses	.. ..	Losses, as described in section 80 of the Assessment Act, incurred by a taxpayer in any of the seven years preceding the year of income are, subject to certain conditions, allowable deductions. In the case of a business of primary production, the seven-year limit does not apply and under section 80AA such losses are allowed if incurred in the 1957–58 income year or a subsequent year.
section 80 loss carried forward		This item represents the amount of losses which have been accumulated at the end of the year of income and which will rank as allowable deductions in the following year.
section 80 loss recouped		This item represents the losses of previous years which were allowed as deductions in the current year of income.
Net business income	..	The total income from business less business deductions (including section 75A deductions) and investment allowance. ( <i>See also</i> Profit (or loss) from the sale of real estate, shares, etc.).
Net income— individuals	..	Total assessable income less total deductions for expenses incurred in gaining assessable income (including sections 62AA, 62AB, 75A, 82AA to 82AQ inclusive).
superannuation funds		For funds meeting the tests in sections 23 ( <i>ja</i> ) and 23F, net income comprises investment income, income received from private companies and income other than dividends derived from transactions not at arm's length. It does not include deductions of tax instalments made during the year from salaries and wages or deductions made in the year from dividends or interest derived by non-residents on account of withholding tax. It does, however, include amounts of instalment deductions applied during the year against tax payable. Revenue collections of income tax shown on page vi of this supplement include all revenue collected during the financial year (including tax instalment deductions and withholding tax deductions) less all refunds of tax and refunds of excess tax instalment deductions and withholding tax deductions.

## **PART B. SALES TAX**

### **EXPLANATORY NOTE**

Sales tax returns are required from all manufacturers and wholesalers of goods taxable under the Sales Tax Acts. The statistics in Schedules 7.1 to 7.5 have been compiled from sales tax returns lodged during the year ended 30 June 1977 but the collections figures include amounts collected by the Bureau of Customs in respect of which sales tax returns are not lodged. In most cases the returns lodged related to sales in the month immediately preceding the month of lodgment. The tax on imported goods subject to sales tax which are not imported for sale by wholesale is collected at the port of entry by the Bureau of Customs.

The amount of gross taxable sales represents the total sale value on which sales tax is payable in respect of returns lodged at the Taxation Office and the amount of net taxable sales is the amount remaining after gross taxable sales have been adjusted for discounts, goods returned, bad debts, etc.

Schedule 7.5 sets out a dissection of taxable sales included in sales tax returns classified by rate of tax by business-type group. Firms are classified by business-type by reference to the nature of the goods that account for the major portion of their taxable sales. The taxable sales for all rates in each return are allocated to one business-type group, notwithstanding that in some cases the rates shown may not correspond to the goods included in the business-type description. The business-type groups do not, therefore, provide a reliable dissection of taxable sales by commodity.

## PART C. ESTATE DUTY

### EXPLANATORY NOTES

The statistics of estate duty in this part have been compiled from dutiable estate duty returns, assessments for which have issued during the year ended 30 June 1977. For the purpose of assessing estate duty the assets of the deceased persons comprise—

- (a) where the deceased was domiciled in Australia at the time of death, his real property in Australia and his personal property whether in or out of Australia; or
- (b) where the deceased had foreign domicile at the time of his death, his real and personal property in Australia.

Estates have been classified by grade of net value of estate, by office of assessment, by State of location of assets, by sex and age group of deceased and by industry. The industry classification indicates the industry in which the deceased was last gainfully occupied during his lifetime. Where the deceased was engaged in more than one industry at death, the estate has been classified according to the predominant industry as disclosed by the assets of the estate. The age of the deceased has been taken as the age on the birthday nearer the date of death.

#### EXPLANATION OF TERMS USED

- Dutiable value** .. This is the amount on which duty is calculated. It is the amount remaining after deducting from the net value of the estate the exempt estate (e.g., gifts to certain charitable institutions), all allowable deductions and the statutory exemption.
- Net value of estate** .. This amount represents the gross value of the estate as assessed (including exempt estate) less debts and other liabilities of the deceased person (including income tax and land tax to the date of death), the matrimonial home deduction which applied to estates of persons dying before 18 August 1976, or the spouse deduction applying to estates of persons dying on or after that date.
- Rebates** .. .. A rebate of estate duty may be allowable—
- (a) where a gift of property which is liable for gift duty is also included in the estate of the donor (section 8 (6.));
  - (b) when duty is paid outside Australia in respect of any part of the estate situate outside Australia (section 8 (7.)); or
  - (c) if the deceased was a beneficiary in an estate (upon which duty is payable or has been paid) of a person who pre-deceased him by not more than 5 years (section 8A).

In respect of estates of primary producers who died on or after 25 September 1969, a rebate of estate duty attributable to rural property may be allowable if the value of the estate (before deducting any statutory exemption) is less than \$250 000 and certain conditions are satisfied (section 9E).

(Sections mentioned are sections of the Estate Duty Assessment Act.)

Statutory exemption . . . The law provides for diminishing statutory exemptions which relieve small estates from duty and provide a measure of discrimination in favour of estates passing to close relatives.

Special exemptions apply to primary producer estates of persons who died on or after 25 September 1969.

As at 30 June 1977, the statutory exemptions were:

- (a) where the whole of the estate passes to the widow, widower, children or grandchildren of the deceased person—
  - (i) for qualifying estates of deceased primary producers—\$48 000
  - (ii) for other estates—\$40 000decreasing by \$2 for every \$8 by which the value of the estate exceeds \$48 000 or \$40 000 as the case may be;
- (b) where no part of the estate passes to the above-mentioned relatives—
  - (i) for qualifying estates of deceased primary producers—\$24 000
  - (ii) for other estates—\$20 000decreasing by \$2 for every \$8 by which the value of the estate exceeds \$24 000 or \$20 000 as the case may be; and
- (c) where part only of the estate passes to the above-mentioned relatives—an amount calculated proportionately under (a) and (b) above.

A primary producer estate is one in which—

- (a) the assets consist mainly of rural property, i.e., land used for farming and other specified assets associated with primary production; and
- (b) the estate arises from the death of a person who was domiciled in Australia at the time of his death and who, in the five years prior to death, derived most of his income from a business of primary production carried on by him in Australia.

The statutory exemptions listed above apply to the estates of persons whose death occurred on or after 16 August 1972. For the estates of persons who died before that date the exemptions were half of those shown above.

Special exemptions are also allowed in respect of estates of defence personnel who have died on active service or within three years thereafter from injuries received or diseases contracted while on active service and prescribed personal property held in Australia by certain United States personnel who are in Australia solely for purposes connected with projects of the United States Government.

## **PART D. GIFT DUTY**

### **EXPLANATORY NOTE**

For gifts made after 14 August 1972, gift duty is payable if the value of a gift exceeds \$10 000 or if the aggregate value of all gifts made by the same donor within a period commencing eighteen months before and ending eighteen months after the date of the subject gift exceeds \$10 000. Assessments recorded in grades of dutiable value of assessment up to \$9 999 are for gifts which together with other gifts made in the prescribed period exceeded \$10 000 in value.

The rate of gift duty is determined by the aggregate value of all gifts made in the prescribed period. Where a subsequent gift occasions a change in the rate of duty applied to a previous gift already assessed, an amended assessment is issued. Such amendments, however, are not accounted for in the statistics.

## **PART E. PAY-ROLL TAX**

### **EXPLANATORY NOTE**

Pay-roll tax on wages payable in the Australian Capital Territory and the Northern Territory was levied at the rate of 5 per cent during the financial year 1976-77.

The general exemption during the financial year 1976-77 was a fixed amount of \$1733.33 per month for the period 1 July 1976 to 30 December 1976 and from 1 January 1977 the exemption is \$48 000 on an annual pay-roll basis. For an employer with an annual pay-roll in excess of \$48 000, the exemption is an amount of \$48 000 less \$2 for every \$3 by which the annual pay-roll exceeds \$48 000—no exemption being allowable where the annual pay-roll is \$120 000 or more. Where an employer is required under a State law to include wages in State pay-roll tax returns, only a proportionate part of the exemption is allowable.

The figures in schedules 10.1 and 10.2 are compiled from returns lodged in respect of wages paid in each of the months of the financial year 1976-77. The industry classification is based on the Australian Standard Industrial Classification.
