## PART A. INCOME TAX

### EXPLANATORY NOTES

#### 1. STATISTICS OF ASSESSMENTS

The main body of statistics of income tax assessments contained in this volume have been obtained from 1965–66 income year returns most of which were assessed in the following year, the 1966–67 assessment year.

For individuals the statistics relate mainly to taxable assessments for the 1965–66 income year issued in the period 1 July 1966 to 30 September 1967, other than those based on returns that included non-resident dividend income as defined. Particulars of taxable assessments that included non-resident dividend income are given separately (Schedule 1.39). Statistics obtained from non-taxable returns lodged by individuals were compiled for the 1965–66 income year and are summarized in Schedules 1.43 to 1.47. A summary of statistics of taxable assessments for the 1962–63 income year, issued after 30 September 1964, is provided in the supplementary and final tabulation in Schedules 1.41 and 1.42.

The partnership and trust statistics relate to returns for the 1965–66 income year assessed in the period 1 July 1966 to 30 September 1967, inclusive.

For companies, the statistics relate to both taxable and non-taxable returns for the 1965–66 income year assessed in the period 1 July 1966 to 31 December 1967, inclusive. Supplementary tables of company assessments issued after the closing date of the ‘main’ tabulation are not compiled, but the number of such assessments is not significant.

The superannuation fund statistics relate to taxable and non-taxable funds for the 1965–66 income year, assessed during the period 1 July 1966 to 31 December 1967.

Except for Schedule 6.1, income tax statistics in Part A relate only to original returns and assessments. Amendments are not recorded for statistical purposes.

#### (a) Individuals

*General*—Income tax statistics for individuals included in this volume relate to both taxable and non-taxable returns. Taxable returns are those in which the taxable income exceeded \$416 and the tax assessed was not extinguished by rebates. The statistics of non-taxable individuals relate only to those non-taxable individuals who lodged returns. The statistics for certain items include amounts representing partners’ and beneficiaries’ shares in partnerships and trusts. These items are as follows:

- Actual income
- Exempt income
- Deductions, sections 75 and 76
- Investment allowance

Generally, statistics of individual taxpayers do not otherwise include any amounts relating to partnerships or trusts.

For convenience, assessments of those partnerships and trusts liable to pay income tax have been included with statistics of individual taxpayers.

The items tabulated and classifications employed are set out in the key to Schedules 1.1 to 1.47 at page 20.

*Occupation coding*—The occupation classification for taxable individuals adopted for the 1965–66 income year is as follows:

- |  |    |    |    |        |
|--|----|----|----|--------|
| Taxpayers not subject to provisional tax   | .. | .. | .. | Code 1 |
| Taxpayers subject to provisional tax—  |    |    |    |        |
| (a) with taxable income from both property and salaries and wages, but no other personal exertion income | .. | .. | .. | Code 6 |
| (b) with taxable income from property only   | .. | .. | .. | Code 7 |
| (c) with taxable income from both salaries and wages and other personal exertion income                  | .. | .. | .. | Code 8 |
| (d) with personal exertion income, but not salaries or wages   | .. | .. | .. | Code 9 |

A taxpayer is classified as subject to provisional tax if his taxable income from sources other than salary or wages is \$300 or more.

Non-taxable returns of individuals were classified in two categories:

- (i) returns including assessable income from other personal exertion, and
- (ii) other returns (code X).

*Industry Coding*—Individual taxpayers subject to provisional tax and with taxable income from personal exertion other than salaries or wages (that is, taxpayers in occupation codes 8 and 9) have been coded to the industry which provided the main source of their other personal exertion income.

Non-taxable returns including assessable income from other personal exertion are coded to the industry which provided the main source of such assessable income.

It is important to note that each taxpayer is coded to one industry only for statistical purposes.

*Sampling*—Statistics of assessments of certain groups of salary and wage earners are obtained by sampling. This method of compilation of statistics has been used since it was adopted for the 1951–52 income year. Particulars of the sampling programme were given in the Thirty-third Report of the Commissioner of Taxation. Certain statistics of assessments of taxpayers subject to provisional tax were obtained by sampling methods for the first time for the 1964–65 income year.

The following statistical items for certain taxpayers in New South Wales, Victoria, Queensland, South Australia and Western Australia were compiled by sampling methods for the 1966–67 assessment year (1965–66 income year):

Non-provisional (Occupation code 1)	Provisional (Occupation codes 6 to 9)
Actual income	Dependants
Exempt income	Deductions—
Net partnership or trust income	Net medical expenses
Dividends included in assessable income	Life insurance and superannuation payments
Interest included in assessable income—	Education expenses
Bank interest	Rates and taxes on non-income-producing property
Total	
Dependants	

## Deductions—

Net medical expenses  
 Life insurance and super-  
 annuation payments  
 Education expenses  
 Rates and land taxes on non-  
 income-producing property

Total

## Taxable income—

Salaries and wages

Total

Net tax payable

Sampling of non-provisional assessments was used also in the case of certain taxpayers in Tasmania.

The sample of residents not subject to provisional tax covered taxpayers whose actual incomes did not exceed the following limits—

Office	Actual Income	
	Males	Females
	\$	\$
New South Wales .. .. .	5,999	2,599
Victoria .. .. .	5,999	2,599
Queensland .. .. .	5,999	2,399
South Australia .. .. .	5,999	2,399
Western Australia .. .. .	5,999	2,399
Tasmania .. .. .	5,999	1,999

In the case of assessments of taxpayers subject to provisional tax, statistics of the items listed were obtained by sampling for grades of actual income up to \$19,999. Other statistical items for occupation codes 6 to 9 and all items for taxpayers with actual incomes of \$20,000 and over were compiled on a full extraction basis.

In more than 3 per cent of the assessments of non-provisional taxpayers in the grades of actual income shown above, the statistics were compiled on a full extraction basis. The non-provisional sample covered over 8 per cent of the remaining assessments in these grades. For the sample of provisional tax assessments, approximately 29 per cent of cases in the relevant grades of actual income were included in the sample.

Statistics relating to these taxpayers are subject to sampling errors. Where Commonwealth figures are shown by grade of actual income, as in Schedule 1.3, any errors are small and may be ignored. However, where figures are deducted by subtraction from other schedules, they may be subject to large sampling errors.

*Final and Supplementary Tables*—Final tables of assessments of individuals in respect of the 1962–63 income year are presented in Schedules 1.41 and 1.42 of this part.

The information tabulated relates to:

- (a) the main tabulation, i.e., statistics of assessments issued up to 30 September 1964 and recorded in detail in the supplement to the 44th Report; and
- (b) a supplementary tabulation of assessments issued from 1 October 1964 to 30 June 1967.

Assessments issued more than four years after the close of the year of income are not tabulated.

A description of the occupation and industry codes used in tabulating assessments for the 1962–63 income year is given at page 7 of ‘Taxation Statistics 1963–64’, the supplement to the 44th Report.

### **(b) Partnerships and Trusts**

The net income of a partnership or trust is the assessable income, calculated as if the partnership or trust were a taxpayer, less all allowable deductions except concessional deductions and, in the case of a partnership, losses in respect of previous years. In certain circumstances losses of previous years of a trust are not allowable deductions if such losses are required to be met out of corpus. Net income is the amount normally available for distribution to the partners or beneficiaries for inclusion as assessable income in their returns.

A partner’s share of the partnership loss incurred in the year of income is a deduction allowable to the partner.

Partnerships and trusts are required to lodge income tax returns; but they are not liable to pay tax except in specified circumstances. Generally, a partner is assessable on his individual interest in the partnership, and a beneficiary is assessable on the income from a trust to which he is presently entitled.

Partners’ and beneficiaries’ shares in the net income, Government loan interest (section 160AB) and exempt income of partnerships and trusts and in deductions allowed under sections 75 and 76, deductions for investment allowance and export market development allowance are transferred to the returns of the partners and beneficiaries and included in the statistics for individuals as well as for partnerships and trusts. Otherwise statistics of individual taxpayers do not include any amounts relating to the partnerships or trusts (unless an indication is given to the contrary).

Partnerships and trusts have been coded to industry in the same manner as individuals subject to provisional tax. Those deriving income solely from property have been described as ‘Property Owners’ while the remainder have been coded according to the main source of personal exertion income.

As indicated above—(a) Individuals—*General*—assessments of partnerships and trusts which are liable to pay income tax have been ‘tabulated’ for convenience with individuals.

### **(c) Companies**

Statistics are given separately for—

- Private companies
- Public companies
- Special section assessments
- Non-profit companies
- Co-operative companies.

Definitions of the above, with the exception of public companies, are given below under ‘5. Explanation of Terms used.’ The term ‘public companies’, as used in the tables, refers to cases not included in the other four categories.

Companies have been coded to the industry which provided the main source of assessable income.

The various items tabulated and classifications employed are set out in the key to Schedules 3.1 (1) to 3.31 (4) on page 22.

#### (d) Superannuation Funds

Statistics of superannuation funds relate to all superannuation funds whose trustees were liable to be assessed and pay tax on all or part of the investment income of the funds for the 1965–66 income year, in accordance with the provisions of sections 121CA, 121CB, 121D and 121DA of the Assessment Act.

The statistics of taxable and non-taxable funds are classified by grade of total assets, type of fund and office of assessment. The assets to which these statistics relate do not include life insurance policies.

### 2. STATISTICS OF LODGMENTS—SCHEDULES 5.1 AND 5.2

The statistics in these schedules relate to both taxable and non-taxable returns lodged by individuals, partnerships and trusts and companies.

Taxable returns of individuals for the 1964–65 to 1966–67 assessment years (1963–64 to 1965–66 income years), are those in which the taxable income exceeded \$416.

### 3. STATISTICS OF AMOUNT DEBITED, AMOUNT CREDITED AND AMOUNT OUTSTANDING—SCHEDULE 6.1

This schedule sets out by office the amount debited, amount credited and the amount outstanding for the financial years 1966–67 and 1967–68.

### 4. INCOME AND COST SURVEYS—SCHEDULES 7.1 TO 7.6

These schedules summarize the results of sample surveys for the 1966–67 income year of income, cost, etc. items of individuals and of partnerships with net incomes of \$2,000 or more coded to the Medical, Dental, Legal, Accounting, Para-Medical and other professions.

### 5. EXPLANATION OF TERMS USED

The following notes on various items in the schedules of Part A are included as an aid to the interpretation of the statistics. In some cases, the definitions used herein may differ slightly from those used in prior years. When comparisons are made between years, regard should be had to definitions of terms for the particular years to which the statistics relate.

Assessment Act means the *Income Tax Assessment Act* 1936–1966, and all references to sections, divisions, etc., in these notes are, unless otherwise indicated, references to that Act.

Actual income . . . Actual income, which is tabulated for individual taxpayers and used as a basis of classification in most of the statistical tables, is briefly gross income (including exempt income) less the expenditure incurred in gaining that income. Actual income is obtained by adding taxable income, exempt income, deductions under sections 62AA, 62AB, 75 and 76 and ‘total deductions’ as defined below. Deductions under sections 62AA, 62AB, 75 and 76 are deductions of a special or capital nature while ‘total deductions’ as defined includes mainly deductions of a concessional nature. In the case of residents, actual income includes income from all sources, but for non-residents only income derived from sources in Australia is included.

- Balance of net income . . . Net income (*see* page 12) other than net business income, salaries and wages in assessable income, net partnership or trust income, dividends and interest included in assessable income.
- Central Office . . . Taxpayers who derive income (other than dividends, salaries and wages) from sources in more than one State and those whose income is derived wholly from sources out of Australia lodge their returns with this office. Residents of the Australian Capital Territory and persons whose income is derived wholly within the Territory are assessed in this office.
- Chemist expenses . . . Amounts paid to chemists and included in 'net medical expenses' allowed as deductions under section 82F.
- Commonwealth securities Bonds, debentures, stock or other securities issued under an Act but not including securities issued in respect of a loan raised outside Australia unless there is in force a declaration by the Treasurer, published in the *Gazette*, that those securities shall be Commonwealth securities for the purposes of the Act.
- Concessional deductions Concessional deductions are those allowed under sections 82B to 82J of the Assessment Act and include deductions for:  
 Dependants—Section 82B.  
 Housekeeper—Section 82D.  
 Medical expenses—Section 82F.  
 Funeral expenses—Section 82G.  
 Life insurance, etc.—Section 82H.  
 Payments to medical and hospital benefit funds—Section 82HA.  
 Education expenses—Section 82J.
- Contributions . . . In relation to a superannuation fund this means contributions from employers, employees and self-employed persons.
- Co-operative company . . . A co-operative company is defined in section 117 of the Assessment Act. Broadly, a co-operative company is one in which the number of shares held by one person is limited, shares are not quoted on the Stock Exchange, and business is carried on primarily for one or more of the following purposes:  
 (a) the acquisition of commodities or animals for disposal or distribution among its shareholders;  
 (b) the acquisition of commodities or animals from its shareholders for disposal or distribution;  
 (c) the storage, marketing, packing or processing of commodities of its shareholders;  
 (d) the rendering of services to its shareholders;  
 (e) the obtaining of funds from shareholders to lend to other shareholders to enable them to acquire land or buildings to be used for the purpose of residence or of residence and business.

## Deemed distribution—

- section 51AB (10) .. Interest on convertible notes which has not been allowed as a deduction from the assessable income of a private company (see 'Interest on Convertible Notes') is deemed under section 51AB (10) to be a dividend paid by the company when calculating the 'undistributed amount' for the purposes of Division 7.
- section 106. . . See 'Excess Distribution'.
- Default assessment .. Under section 167 of the Assessment Act the Commissioner may make an assessment of the amount on which, in his judgment, income tax ought to be levied. This section may be applied when a return is not lodged or an unsatisfactory return is lodged.
- Dental expenses .. Payments to a legally qualified dentist for dental services or treatment or the supply, alteration or repair of artificial teeth.
- Dependants .. Dependants in respect of whom a taxpayer is allowed concessional deductions are classified according to the maximum deduction allowable. For the income years 1957-58 to 1965-66:
- Maximum deduction \$286—spouse, parent, parent-in-law and daughter-housekeeper;
  - Maximum deduction \$182—one child, invalid relative and student child;
  - Maximum deduction \$130—other children.
- The definition of 'child' for income tax purposes includes an adopted child, step-child or ex-nuptial child of the taxpayer.
- A dependant is counted for statistical purposes if the deduction allowed in the taxpayer's assessment amounts to more than half of the maximum deduction allowable.

## Depreciation—

- depreciated value .. Broadly, the depreciated value of a unit of plant is its cost price less the total depreciation deductions allowed or allowable in respect of that unit and less any balancing charge adjustment.

A balancing charge is, briefly, the excess of any consideration received on the disposal of plant over its depreciated value, but not exceeding the depreciation allowed or allowable on that unit of plant.

A taxpayer is afforded a choice between the inclusion of a balancing charge in his assessable income of the year in which the asset is disposed of, or the deduction of a

Depreciation—*continued*

corresponding amount from the value of the replacement asset or other assets in respect of which he is entitled to depreciation. When the latter course is chosen, depreciation allowances on the asset or assets against which the balancing charge is set-off are calculated on the reduced value and the depreciated value is correspondingly reduced.

depreciation allowed      Two methods of calculating depreciation are used—Prime Cost and Diminishing Value. Under the first method, the same amount is allowable as a deduction each year, the amount being a fixed percentage of the cost price of the asset reduced when necessary by any balancing charge adjustment. Under the diminishing value method, a reducing amount is allowable as a deduction each year, the amount being a percentage of the depreciated value of the asset.

The rate of depreciation allowed under the diminishing value method is one and one-half times the rate under the prime cost method.

A special rate of 20 per cent is allowed on the cost of certain assets (excluding motor cars) used wholly and exclusively in agricultural, pastoral, fishing and pearling pursuits.

depreciable assets purchased      For individuals and partnerships and trusts the amount shown represents the cost of depreciable assets purchased less the amount of any balancing charge offset against the cost of those assets. For companies the amount shown is the cost of the assets purchased before offsetting any amount of balancing charge. Where an asset is used partly for private purposes the cost of that asset is for statistical purposes reduced proportionately.

depreciable assets disposed of during year      For companies disposals of assets include any amounts of balancing charges offset against the value of new or existing assets. For individuals, partnerships and trusts, disposals of assets do not include balancing charges offset against the value of other assets. However, purchases of depreciable assets have been reduced to the extent to which balancing charges have been offset against the cost of those purchases.

Distributable income ..      See Division 7.

Dividends—

exempt .. ..      This item includes dividends paid out of exempt income, or from profits arising from the re-valuation of assets not acquired for re-sale at a profit and dividends which are tax-free by virtue of section 107.

included in assessable income      This item consists of the gross amount of dividends included in the assessable income and includes assessable bonus shares but excludes exempt dividends.

Dividends—*continued*

- subject to rebate . . . Under section 46 of the Assessment Act a rebate of tax is allowed in respect of dividends included in the taxable income of a company which is a resident of Australia.
- paid within the pre-  
scribed period . . . See Division 7.
- Division 7 . . . . . Under Division 7 of Part III. of the Assessment Act private companies are liable for additional tax if there is an insufficient distribution of taxable income by way of dividends. Tax on the 'undistributed amount', as defined, is imposed at the rate of 50 per cent.
- The undistributed amount is the amount by which the sum of the dividends paid by the company within the prescribed period (that is, the period of one year commencing two months before the end of the year of income or such additional period as is allowed by the Commissioner) and the retention allowance falls short of the distributable income. The distributable income is, broadly, the amount ascertained by deducting from the taxable income the normal tax payable in respect of that income and the amount of any net loss incurred outside Australia.
- Education expenses . . . Deductions under section 82J. Maximum of \$300 allowable for each dependant or child of the taxpayer under 21 years of age for expenses in connection with full-time education.
- Excess distribution . . . See Division 7. This item represents dividends paid by private companies, within the prescribed period or such additional period as is determined by the Commissioner, in excess of a sufficient distribution for the purposes of Division 7. The excess distribution is deemed to be a dividend paid in the prescribed period of the next succeeding income year.
- Exempt income . . . A number of sections of the Assessment Act provide for the exemption or part-exemption of certain types of income, e.g., sections 23, 23A, 23C and 23D. Exempt income includes exempt dividends and income from gold-mining in Australia and New Guinea.
- Expenditure sections 75  
and 76 . . . Under sections 75 and 76 of the Assessment Act, deductions are allowed for expenditure incurred by a taxpayer, carrying on a business of primary production, in respect of eradication of pests, destruction of timber, scrub and wheat, preparation of land for agriculture and grazing, draining land, combating soil erosion, construction of dams, etc., construction of levee banks, expenditure on underground pipes (section 75); and in purchasing wire or netting for fences as protection against animal pests and in connection with land adversely affected by natural mineral deposits (section 76).

Export market development allowance		Special deduction under section 51AC.
First child	.. ..	One dependent child under sixteen years of age—maximum deduction \$182.
Gifts	.. ..	Deductions under section 78 for gifts of \$2 and upwards to public benevolent institutions, etc., and to approved research institutes for scientific research.
Gross hospital expenses		The gross amount allowed as a deduction on account of payments to hospitals in respect of an illness or operation. Other expenses, such as amounts paid to medical practitioners, are not included in this item.
Housekeeper	..	Person in respect of whom a deduction is allowed under section 82D—maximum deduction \$286.
Interest—		
allowed	.. ..	Subject to the modification imposed by section 51AB, interest incurred in respect of money borrowed for the purpose of gaining or producing assessable income.
bank interest	..	Includes interest from savings banks and interest on fixed deposits with banks, but does not include interest from finance companies associated with banks.
government loan interest		The interest on Commonwealth Loans issued since 1 January 1940 is taxable at current rates. The taxpayer is entitled, however, to a rebate of tax of 10c for each \$1 of such interest included in his taxable income.
included in assessable income		Total interest including bank interest and Government Loan interest.
on convertible notes		Interest on convertible notes is an allowable deduction provided the notes were issued on or before 15 November 1960 or (a) the terms of the issue of the notes were announced before that date; or (b) the issuing company was, in pursuance of an agreement made before that date, bound to issue the notes. If the convertible notes were issued after 15 November 1960 and if the circumstances referred to in (a) or (b) above do not apply, the interest on the notes is not an allowable deduction.
on debentures	..	Includes all payments of interest on loans that are customarily regarded as debentures or notes.
Investment allowance	..	Special deductions under sections 62AA and 62AB.

Investment income ..	The amount that would be the assessable income of a superannuation fund to which section 121D applies if it were an ordinary taxpayer, less the deduction (other than concessional deductions) that would normally be allowable in respect of that income.
Life insurance and superannuation payments	Deductions allowable under section 82H—maximum allowable \$800 per taxpayer.
Losses .. ..	Losses, as described in section 80 of the Assessment Act, incurred by a taxpayer in any of the seven years preceding the year of income are, subject to certain conditions, allowable deductions.
section 80 loss carried forward	This item represents the amount of losses which have been accumulated at the end of the year of income and which will rank as allowable deductions in the following year.
section 80 loss recouped	This item represents the losses of previous years which were allowed as deductions in the current year of income.
Moneys paid on shares—petroleum exploration	Residents of Australia or the Territory of Papua and New Guinea who contribute capital to companies carrying on as their principal business prospecting or mining operations for the purpose of discovering or obtaining petroleum in Australia or the Territory of Papua and New Guinea may obtain a full deduction for moneys paid on shares issued by such companies. A deduction may also be allowable where the money is paid on shares in a company that in turn invests in a company mining or prospecting for petroleum. In each instance, a deduction is allowable provided that a written declaration signed by the Public Officer of the company is lodged stating that the company has expended or proposes to expend the moneys in carrying out prospecting or mining operations in Australia for the purpose of discovering or obtaining petroleum or on plant necessary for carrying out such operations. It is a condition of the allowance that the company to which the capital is contributed shall forgo any right it may otherwise have to claim a deduction under Division 10AA of the Assessment Act in respect of expenditure of that capital. Under that Division a person who derives income from the sale of petroleum mined in Australia or Papua-New Guinea is entitled to a deduction for capital expended in prospecting or mining for petroleum in Australia or Papua-New Guinea or in plant necessary for the treatment of that petroleum.
Net business income ..	The total income from business less business deductions, export market development allowance and investment allowance.

- Net income—individuals Total assessable income less total deductions for expenses incurred in gaining assessable income.
- Net income—partnerships and trusts *See* 1 (b), page 4.
- Net medical expenses . . . This item represents gross medical, dental, optical, funeral expenses, etc., less amounts paid or payable by a government, public authority, society or association. In the case of funeral expenses it is subject to a maximum of \$100 per dependant.
- Net profit from share farming This item includes net losses from share farming.
- Net tax . . . Net tax is ascertained by deducting from the tax otherwise payable, the amount of any rebates arising from the assessment.
- Non-profit company . . . A non-profit company is a company which is not carried on for the purpose of profit or gain to its individual members. The terms of the memorandum or articles of association, rules or other documents constituting the company or governing its activities, must prohibit it from making any distribution in money, property or otherwise to its members. Statistics of non-profit companies include assessments of friendly society dispensaries.
- Non-resident dividend income Income on which dividend (withholding) tax is payable.
- Non-taxable companies Companies are ordinarily non-taxable if their taxable income is less than \$2 or if they are allowed rebates which equal or exceed the tax otherwise payable. Non-profit companies and companies in the capacity of trustees for which statistics are presented in this supplement were non-taxable if their taxable income did not exceed \$416.  
Private companies are non-taxable under Division 7 of Part III of the Act if they make a sufficient distribution. A sufficient distribution is made if the amount paid in dividends during the prescribed period or such additional period as is allowed by the Commissioner is not less than the excess of the distributable income over the retention allowance. (*See* Division 7 above.)
- Numbers of dependants For method of counting dependants *see* 'Dependants'.
- Other children . . . Dependent children under 16 years of age other than the child for whom a deduction of \$182 is allowed—maximum deduction for each 'other child' is \$130.

- Other personal exertion income    The amount of personal exertion income other than salary and wages included in the taxable income.
- Other public securities . . . This item consists of—
- (a) bonds, debentures, stock or other securities issued by—
    - (i) a State;
    - (ii) a Territory of the Commonwealth; or
    - (iii) a municipal corporation, other local governing body or public authority constituted by or under an Act or by or under the law of a State or Territory of the Commonwealth,
 but does not include securities in respect of a loan raised outside Australia and the Territories of the Commonwealth unless there is in force a declaration by the Treasurer, published in the *Gazette*, that those securities shall be public securities for the purposes of this Act; and
  - (b) securities issued in respect of a loan to a company, the principal business of which is the supply and distribution, by a system of reticulation, in Australia or a Territory of the Commonwealth, of water, gas or electricity.
- Private company    . . . In broad terms a private company is one the shares in which are not quoted on the Stock Exchange, and which is capable of being controlled by a relatively few individuals. A subsidiary of a public company is not classed as a private company.
- Property income    . . . All income other than income from personal exertion.
- Provisional tax    . . . Individuals are classified as subject to provisional tax if their taxable income from sources other than salary or wages was \$300 or more in the 1964–65 and subsequent income years.
- Rates and land taxes on non-income-producing property    Deductions allowed for payments of rates annually assessed and land taxes for which the taxpayer is personally liable in respect of property not used by the taxpayer in the production of assessable income.
- Resident    . . .    . . . A resident is defined in section 6 of the Assessment Act. Briefly ‘resident’ or ‘resident of Australia’ means
- (a) a person, other than a company, who resides in Australia;
  - (b) a company which is incorporated in Australia, or which, not being incorporated in Australia, carries on business in Australia, and has either its central management and control in Australia, or its voting power controlled by shareholders who are residents of Australia.

Retention allowance	..	See also Division 7. The retention allowance represents income which a private company may retain in its business without incurring a liability for additional tax under Division 7. The rates of retention allowance for the 1965-66 income year were as follows—
		Dividends from other private companies included in the distributable income .. Nil
		Other income from property included in the distributable income .. .. 10 per cent
		Other income included in the distributable income—

Explanation of code numbers for dependant groups—

First digit: number of dependants for whom a deduction of \$286 was allowed.

Second digit: number of dependants for whom a deduction of \$182 was allowed.

Third digit: number of dependants for whom a deduction of \$130 was allowed.

The symbol OXX indicates all other groups of dependants where no deduction at \$286 was allowed; IXX indicates all other groups of dependants where one deduction at \$286 was allowed, and XXX indicates all dependant groups where two or more deductions at \$286 were allowed.

\* 'Amount credited' is mainly the tax received on account of assessments of income tax less any refunds of tax under the Audit Act. It does not include deductions of tax instalments made during the year from salaries and wages or deductions made in the year from non-resident dividend income on account of dividend (withholding) tax. It does, however, include amounts of instalment deductions and dividend (withholding) tax applied during the year against tax payable. Revenue collections of income tax shown on page vi of this supplement include all revenue collected during the financial year (including tax instalment deductions and dividend (withholding) tax deductions) less all refunds of tax and refunds of excess tax instalment deductions and dividend (withholding) tax deductions.

## PART B. SALES TAX

### EXPLANATORY NOTE

Sales tax returns are required from all manufacturers and wholesale merchants of goods taxable under the Sales Tax Acts. The statistics in Schedules 8.2 to 8.5 have been compiled from sales tax returns lodged during the year ended 30 June 1967. In most cases the returns lodged related to sales in the month immediately preceding the month of lodgment.

#### EXPLANATION OF TERMS USED

- |                         |    |   |
|-------------------------|----|---|
| Exempt sales ..         | .. | This item covers the value of sales of goods specifically exempt from sales tax, and of goods, normally subject to tax, sold to exempt bodies or for an exempt use. As returns are not required regularly from persons dealing wholly in exempt goods, the coverage of this item has varied from time to time as exemption has been withdrawn or extended.  |
| Gross non-taxable sales |    | The amount of gross non-taxable sales represents the total value of sales of goods, not being goods exempt from sales tax, which have not borne sales tax because the tax will be levied at a later stage of distribution. For example, in the case of a manufacturer selling goods to a wholesaler who in turn will resell them to a retailer, the manufacturer does not pay tax in respect of this sale, even though the goods may not be exempt from tax, because the tax will be levied at the point of sale from the wholesaler to the retailer. |
| Gross taxable sales ..  | .. | The amount of gross taxable sales represents the total sale value on which sales tax is payable.  |
| Net taxable sales ..    | .. | The amount of net taxable sales is the amount remaining from gross taxable sales after adjustments have been made for discounts, goods returned, bad debts and other adjustments.   |

## PART C. PAY-ROLL TAX

### EXPLANATORY NOTES

Pay-roll tax returns are required from employers who pay or are liable to pay wages at a rate in excess of \$400 per week. The scope of pay-roll tax is outlined at page 78 of the Report.

A general exemption of \$1,733.33 per calendar month (\$20,800 per annum) is deducted by the employer from the total wages paid by him. The rate of tax on the balance is 2½ per cent. An employer is required to register for pay-roll tax purposes at the office of the Deputy Commissioner for each State in which he has establishments at which wages are paid; only one general exemption is allowable irrespective of the number of States in which the employer is registered.

In certain circumstances a rebate of pay-roll tax was available from 1 July 1960 to 30 June 1968 to employers who produced goods for export and who increased their export sales above half their export sales in the period 1 July 1958 to 30 June 1960.\*

The statistics in Schedules 9.2 to 9.4 relate to wages paid by employers subject to pay-roll tax in each of the months of the 1966-67 financial year. The industry classification is approximate, being based on the predominant activity of the taxpayer.

### EXPLANATION OF TERMS USED

Export sales	..	..	These include amounts received in respect of goods exported, consideration payable by persons abroad in respect of industrial property rights and amounts received in respect of certain re-exports.
Gross receipts	..	..	'The gross receipts for the financial year' as defined in section 16A of the <i>Pay-roll Tax Assessment Act</i> 1941-1967.
Half base period exports	..	..	Half the value of export sales made in the period from 1 July 1958 to 30 June 1960.
Net increase in export sales			The excess of the value of export sales for the financial year over half the value of the base period exports plus the value of any export certificates received, less the value of any export certificates issued by the employer during the financial year.

---

\* For particulars of pay-roll tax rebates in respect of exports after 30 June 1968, see D. Amendments to the Law, page 79 of the Report.

## PART D. ESTATE DUTY

### EXPLANATORY NOTES

The statistics of estate duty in this part have been compiled from estate duty returns, assessments for which have issued during the year ended 30 June 1967. For the purpose of assessing estate duty the assets of the deceased persons comprise—

- (a) where the deceased was domiciled in Australia at the time of death, his real property in Australia and his personal property whether in or out of Australia; or
- (b) where the deceased had foreign domicile at the time of his death, his real and personal property in Australia.

Estates have been classified by grade of net value of estate, by office of assessment, by State of location of assets, by sex and age group of deceased and by industry. The industry classification indicates the industry in which the deceased was last gainfully occupied during his lifetime. Where the deceased was engaged in more than one industry at death, the estate has been classified according to the predominant industry as disclosed by the assets of the estate.

### EXPLANATION OF TERMS USED

- Dutiable value** .. This is the amount on which duty is calculated. It is the amount remaining after deducting from the net value of the estate the exempt estate (e.g., gifts to certain charitable institutions), all allowable deductions and the statutory exemption.
- Net value of estate** .. This amount represents the gross value of the estate as assessed (including exempt estate) less debts and other liabilities of the deceased person (including income tax and land tax to the date of death).
- Rebates** .. .. A rebate of estate duty may be allowable—
- (a) where a gift of property which is liable for gift duty is also included in the estate of the donor (section 8 (6.));
  - (b) when duty is paid outside Australia in respect of any part of the estate situate outside Australia (section 8 (7.)); or
  - (c) if the deceased was a beneficiary in an estate (upon which duty is payable or has been paid) of a person who pre-deceased him by not more than 5 years (section 8A).

(Sections mentioned are sections of the Estate Duty Assessment Act.)

Statutory exemption . . . The law provides for diminishing statutory exemptions which relieve small estates from duty and provide a measure of discrimination in favour of estates passing to close relatives.

These exemptions, at present, are—

- (a) where the whole of the estate passes to the widow, widower, children or grandchildren of the deceased—\$20,000, decreasing by \$2 for every \$8 by which the value of the estate exceeds \$20,000.
- (b) where no part of the estate passes to the above relatives—\$10,000, decreasing by \$2 for every \$8 by which the value of the estate exceeds \$10,000.
- (c) where part only of the estate passes to the above relatives—an amount calculated proportionately under (a) and (b) above.

Special exemptions are also allowed in respect of estates of defence personnel who have died on active service or from injuries received or diseases contracted while on active service and prescribed personal property held in Australia by certain United States personnel who are in Australia solely for purposes connected with projects of the United States Government.

## **PART E. GIFT DUTY**

### **EXPLANATORY NOTE**

Gift duty is payable if the value of a gift exceeds \$4,000 or if the aggregate value of all gifts made by the same donor within a period commencing eighteen months before and ending eighteen months after the date of the subject gift exceeds \$4,000. Assessments recorded in grades of dutiable value of assessment up to \$3,999 are for gifts which together with other gifts made in the prescribed period exceeded \$4,000 in value.

The rate of gift duty is determined by the aggregate value of all gifts made in the prescribed period. Where a subsequent gift occasions a change in the rate of duty applied to a previous gift already assessed, an amended assessment is issued. Such amendments, however, are not accounted for in the statistics.
