## COMMONWEALTH OF AUSTRALIA

Commonwealth Taxation Office,  
Canberra, A.C.T. 2600  
1 September 1971

Sir,

I have the honour to submit to you for presentation to the Parliament 'Taxation Statistics 1969-70', the supplement to the Forty-ninth Report of the Commissioner of Taxation, which was presented to the Parliament on 22 October 1970.

Yours faithfully,

E. T. CAIN,  
Commissioner of Taxation

The Honourable the Treasurer,  
Parliament House,  
Canberra, A.C.T. 2600.

## FOREWORD

This volume of taxation statistics has been prepared as the supplement to the Forty-ninth Report to Parliament of the Commissioner of Taxation. It contains statistics relating in general to the year 1969-70 for the various taxes administered by the Commissioner of Taxation. The levies and the periods to which the statistics relate are:

Income Tax—

Assessments

Individuals, Partnerships, Trusts, Companies and Superannuation Funds:

Assessment year 1969-70 (income year 1968-69).

Individuals, final tabulation:

Assessment year 1966-67 (income year 1965-66).

Amount Debited, Amount Credited and Amount Outstanding:

Financial years 1968-69 and 1969-70.

Sales Tax—Financial year 1969-70.

Pay-roll Tax—Financial year 1969-70.

Estate Duty—Assessments issued from 1 July 1969 to 30 June 1970.

Gift Duty—Assessments issued from 1 July 1969 to 30 June 1970.

Wool Tax—Financial year 1969-70.

Stevedoring Industry Charge—Financial year 1969-70.

Tobacco Charge—Financial year 1969-70.

Canning-Fruit Charge—Financial year 1969-70.

Statistics of A.C.T. Stamp Duty and Tax for the 1969-70 financial year were included in the Forty-ninth Report which was presented to the Parliament on 22 October 1970.

Where figures have been rounded in this supplement, any discrepancy between a total shown in any table and the sum of its component figures is due to rounding.

## PART A. INCOME TAX

### EXPLANATORY NOTES

#### 1. STATISTICS OF ASSESSMENTS

The main body of statistics of income tax assessments contained in this volume has been obtained from 1968–69 income year returns most of which were assessed in the following year, the 1969–70 assessment year.

For individuals the statistics relate mainly to taxable assessments for the 1968–69 income year issued in the period 1 July 1969 to 30 September 1970. A summary of statistics of taxable assessments for the 1965–66 income year, issued to 30 September 1967 and to 30 June 1970, is provided in the main, supplementary and final tabulations in Schedules 1.42 and 1.43.

The partnership and trust statistics relate to returns for the 1968–69 income year assessed in the period 1 July 1969 to 31 August 1970, inclusive.

The statistics of companies relate to both taxable and non-taxable returns for the 1968–69 income year assessed in the period 1 July 1969 to 31 December 1970, inclusive. Statistics of company assessments issued after the closing date of the main tabulation are not tabulated, but the number of such assessments is not significant.

The superannuation fund statistics relate to taxable funds for the 1968–69 income year, assessed during the period 1 July 1969 to 31 December 1970.

Except for Schedule 5.1, income tax statistics in Part A relate only to original returns and assessments; no adjustment for amendments to assessments is made in these statistics.

#### (a) Individuals

*General*—Income tax statistics of individuals included in this volume relate to taxable returns only. Taxable returns are those in which the taxable income exceeded \$416 and the tax assessed was not extinguished by rebates. The statistics for certain items include amounts representing partners' and beneficiaries' shares in partnerships and trusts. These items are as follows:

- Actual income
- Exempt income
- Deductions, sections 75 and 76
- Investment allowance
- Rebate, section 160AB

Generally, statistics of individual taxpayers do not otherwise include any amounts relating to partnerships or trusts.

For convenience, assessments of those trusts the trustees of which are liable to pay income tax have been included with statistics of individual taxpayers.

The items tabulated and classifications employed are set out in the key to Schedules 1.1 to 1.43 at page 20.

*Occupation coding*—The occupation classification for taxable individuals adopted for the 1968–69 income year is as follows:

Taxpayers not subject to provisional tax	..	..	..	Code 1
Taxpayers subject to provisional tax—				
(a) with taxable income from both property and salaries and wages, but no other personal exertion income	..	..	..	Code 6
(b) with taxable income from property only	..	..	..	Code 7
(c) with taxable income from both salaries and wages and other personal exertion income	..	..	..	Code 8
(d) with personal exertion income, but no taxable salaries or wages	..	..	..	Code 9

A taxpayer was classified as subject to provisional tax if his taxable income from sources other than salary or wages was \$300 or more.

*Industry Coding*—Individual taxpayers subject to provisional tax and with taxable income from personal exertion other than salaries or wages (that is, taxpayers in occupation codes 8 and 9) have been coded to the industry which provided the main source of their personal exertion income other than salaries and wages.

It should be noted that each taxpayer is coded to one industry only for statistical purposes.

*Sampling*—Statistics of assessments of certain groups of salary and wage earners are obtained by sampling. This method of compilation of statistics has been used since it was adopted for the 1951–52 income year. Certain statistics of assessments of taxpayers subject to provisional tax were obtained by sampling methods for the first time for the 1964–65 income year.

For the 1968–69 income year the following statistical items for certain taxpayers in New South Wales, Victoria, Queensland, South Australia and Western Australia were compiled by stratified sampling of assessments by grade of actual income:

Non-provisional (Occupation code 1)	Provisional (Occupation codes 6 to 9)
Actual income	Dependants
Exempt income	Deductions—
Salary and wages included in assessable income	Net medical expenses
Net partnership or trust income	Payments to medical and hospital benefits funds
Dependants	Medical and hospital expenses recouped
Deductions—	Education expenses
Net medical expenses	Number of children for whom education expenses allowed
Payments to medical and hospital benefits funds	
Medical and hospital expenses recouped	

Education expenses  
 Number of children for whom  
 education expenses allowed

Total

Taxable income

Section 160AB rebate

Net tax payable

Sampling of non-provisional assessments was used also in the case of certain taxpayers in Tasmania.

The sample of residents not subject to provisional tax covered taxpayers whose actual incomes did not exceed the following limits—

Office	Actual income	
	Males	Females
	\$	\$
New South Wales .. .. .	5,999	2,599
Victoria .. .. .	5,999	2,599
Queensland .. .. .	5,999	2,399
South Australia .. .. .	5,999	2,399
Western Australia .. .. .	5,999	2,399
Tasmania .. .. .	5,999	1,999

In approximately 2.8 per cent of the assessments of non-provisional taxpayers in the grades of actual income shown above, the statistics were compiled on a full extraction basis. The non-provisional sample covered 6.4 per cent of the remaining assessments in these grades.

The sample of provisional tax assessments included approximately 30 per cent of all individuals subject to provisional tax and extended to all grades of actual income below \$20,000.

Statistics relating to these taxpayers are subject to sampling errors. Where Commonwealth figures are shown by grade of actual income, as in Schedule 1.3, any errors are small and may be ignored. However, where figures are obtained from different schedules by subtraction, they may be subject to large sampling errors.

*Final and Supplementary Tables*—Final tables of assessments of individuals in respect of the 1965–66 income year are presented in Schedules 1.42 and 1.43 of this part.

The information tabulated relates to:

- (a) the main tabulation, i.e., statistics of assessments issued up to 30 September 1967 and recorded in detail in the first supplement to the 47th Report; and
- (b) a supplementary tabulation of assessments issued from 1 October 1967 to 30 June 1970.

Assessments issued more than four years after the close of the year of income are not tabulated.

A description of the occupation and industry codes used in tabulating assessments for the 1965–66 income year is given at page 2 of 'Taxation Statistics 1966–67', the first supplement to the 47th Report.

## **(b) Partnerships and Trusts**

The net income of a partnership or trust is the assessable income, calculated as if the partnership or trust were a taxpayer, less all allowable deductions except concessional deductions and, in the case of a partnership, losses in respect of previous years. Losses of previous years of a trust are allowable deductions except in certain circumstances when such losses are required to be met out of corpus. Net income is, broadly, the amount normally available for distribution to the partners or beneficiaries for inclusion as assessable income in their returns.

A partner's share of the partnership loss incurred in the year of income is a deduction allowable to the partner.

Partnerships and trusts are required to lodge income tax returns; but they are not liable to pay tax. A partner is assessable on his individual interest in the income of the partnership, and a beneficiary is assessable on the income from a trust to which he is presently entitled. A trustee of a trust is liable to pay tax on certain trust income.

Partners' and beneficiaries' shares in the net income, Government loan interest (section 160AB), export market development expenditure and exempt income of partnerships and trusts and in deductions allowed under sections 75 and 76 and deductions for investment allowance are transferred to the returns of the partners and beneficiaries and included in the statistics for individuals. Otherwise statistics of individual taxpayers do not include any amounts relating to the partnerships or trusts.

Partnerships and trusts have been coded to industry in the same manner as individuals subject to provisional tax. Those deriving income solely from property have been described as 'Property Owners' while the remainder have been coded according to the main source of personal exertion income.

As indicated above—(a) Individuals—*General*—assessments of trusts the trustees of which are liable to pay income tax have been tabulated with individuals.

## **(c) Companies**

Statistics are given separately for—

- Private companies
- Public companies
- Special section assessments
- Non-profit companies
- Co-operative companies.

Definitions of the above, with the exception of public companies, are given below under 'Explanation of Terms used.' The term 'public companies', as used in the tables, refers to cases not included in the other four categories.

Companies have been coded to the industry which provided the main source of assessable income.

The classification of company statistics by office in this volume differs from that used in previous years in that no statistics are shown for Central Office, which ceased to operate from 1 July 1970. It was found convenient to classify assessments of companies for the 1968–69 income year assessed in Central Office up to 30 June 1970 to the office in which they were expected to be classified in subsequent years.

The various items tabulated and classifications employed are set out in the key to Schedules 3.1 (1) to 3.31 (4) on page 22.

**(d) Superannuation Funds**

Statistics of superannuation funds relate to all superannuation funds whose trustees were liable to be assessed and pay tax on all or part of certain income of the funds for the 1968–69 income year, in accordance with the provisions of sections 121CA, 121CB, 121D and 121DA of the Assessment Act.

The statistics of taxable funds are classified by grade of total assets, type of fund and office of assessment. The assets to which these statistics relate do not include life insurance policies.

## 2. STATISTICS OF AMOUNT DEBITED, AMOUNT CREDITED AND AMOUNT OUTSTANDING—SCHEDULE 5.1

This schedule sets out by office the amount debited, amount credited and the amount outstanding for the financial years 1968–69 and 1969–70.

### EXPLANATION OF TERMS USED

The following notes on various items in the schedules of Part A are included as an aid to the interpretation of the statistics. In some cases, the definitions used may differ slightly from those used in prior years. When comparisons are made between years, regard should be had to definitions of terms for the particular years to which the statistics relate.

Assessment Act means the *Income Tax Assessment Act 1936–1969*, and all references to sections, divisions, etc., in these notes are, unless otherwise indicated, references to that Act.

- Actual income . . . Actual income, which is tabulated for individual taxpayers and used as a basis of classification in most of the statistical tables, is briefly gross income (including exempt income) less the expenditure incurred in gaining that income. Actual income is obtained by adding taxable income, exempt income, deductions under sections 62AA, 62AB, 75 and 76 and ‘total deductions’ as defined below. Deductions under sections 62AA, 62AB, 75 and 76 are deductions of a special or capital nature while ‘total deductions’ as defined includes mainly deductions of a concessional nature. In the case of residents, actual income includes income from all sources, but for non-residents income derived only from sources in Australia is included.
- Central Office . . . Taxpayers who derived income (other than dividends, salaries and wages) from sources in more than one State and those whose income was derived wholly from sources out of Australia lodged their returns with this office for the 1968–69 income year. Also, residents of the Australian Capital Territory and persons whose income was derived wholly within the Territory were assessed in this office. *See also* ‘(c) Companies’, page 4.
- Commonwealth securities Bonds, debentures, stock or other securities issued under an Act but not including securities issued in respect of a loan raised outside Australia unless there is in force a declaration

by the Treasurer, published in the *Gazette*, that those securities shall be Commonwealth securities for the purposes of the Act. (No declaration had been published as at 31 December 1970.)

Concessional deductions . . . Concessional deductions are those allowed under sections 82B to 82J of the Assessment Act and include deductions for:

Dependants—Section 82B.

Housekeeper—Section 82D.

Medical expenses—Section 82F.

Funeral expenses—Section 82G.

Life insurance, etc.—Section 82H.

Payments to medical and hospital benefits funds—  
Section 82HA.

Education expenses—Section 82J.

Contributions . . . In relation to a superannuation fund this means contributions from employers, employees and self-employed persons.

Co-operative company . . . A co-operative company is defined in section 117 of the Assessment Act. Broadly, a co-operative company is one in which the number of shares held by one person is limited, the shares are not quoted on the Stock Exchange and the business is carried on primarily for one or more of the following purposes:

(a) the acquisition of commodities or animals for disposal or distribution among its shareholders;

(b) the acquisition of commodities or animals from its shareholders for disposal or distribution;

(c) the storage, marketing, packing or processing of commodities of its shareholders;

(d) the rendering of services to its shareholders;

(e) the obtaining of funds from shareholders to lend to other shareholders to enable them to acquire land or buildings to be used for the purpose of residence or of residence and business.

Deemed distribution—

section 51AB (10) . . . Interest on convertible notes which has not been allowed as a deduction from the assessable income of a private company (see 'Interest on Convertible Notes') is deemed under section 51AB (10) to be a dividend paid by the company when calculating the 'undistributed amount' for the purposes of Division 7.

section 106 . . . See 'Excess Distribution'.

sections 108 and 109 . . . Loans and other payments made by a private company to its shareholders are, in certain circumstances, deemed under sections 108 and 109 of the Assessment Act to be dividends paid by the company when calculating the 'undistributed amount' for the purposes of Division 7.

Dependants .. .. Dependants in respect of whom a taxpayer is allowed concessional deductions are classified according to the maximum deduction allowable. For the income year 1968-69:

Maximum deduction \$312—spouse, parent, parent-in-law and daughter-housekeeper;

Maximum deduction \$208—one child, invalid relative and student child;

Maximum deduction \$156—other children.

The definition of 'child' for income tax purposes includes an adopted child, step-child or ex-nuptial child of the taxpayer.

A dependant is counted for statistical purposes if the deduction allowed in the taxpayer's assessment amounts to more than half of the maximum deduction allowable.

#### Depreciation—

depreciated value .. Broadly, the depreciated value of a unit of plant is its cost price (as reduced by any balancing charge adjustment) less the total amount of depreciation allowed or allowable in respect of that unit.

A balancing charge is, briefly, the excess of any consideration received on the disposal of plant over its depreciated value, but not exceeding the depreciation allowed or allowable on that unit of plant.

A taxpayer is afforded a choice between the inclusion of a balancing charge in his assessable income of the year in which the asset is disposed of, or the deduction of a corresponding amount from the value of the replacement asset or other assets in respect of which he is entitled to depreciation. When the latter course is chosen, the cost or the depreciated value is reduced and depreciation allowances on the asset or assets against which the balancing charge is set-off are calculated on the reduced value.

depreciation allowed Two methods of calculating depreciation are used—Prime Cost and Diminishing Value. Under the first method, the same amount is allowable as a deduction each year, the amount being a fixed percentage of the cost price of the asset reduced when necessary by any balancing charge adjustment. Under the diminishing value method, a reducing amount is allowable as a deduction each year, the amount being a percentage of the depreciated value of the asset.

The rate of depreciation allowed under the diminishing value method is one and one-half times the rate under the prime cost method.

Division 7—*continued*

of one year commencing two months before the end of the year of income or such additional period as is allowed by the Commissioner) and the retention allowance falls short of the distributable income. The distributable income is, broadly, the amount ascertained by deducting from the taxable income the normal tax payable in respect of that income and the amount of any net loss incurred outside Australia.

- Education expenses .. Deductions under section 82J. Maximum of \$300 allowable for each dependant or child of the taxpayer under 21 years of age for expenses in connection with full-time education. Where two or more taxpayers are entitled to deductions in respect of the one student, the total of such deductions may not exceed \$300 in respect of that student.
- Excess distribution .. See Division 7. This item represents dividends paid by private companies, within the prescribed period or such additional period as is determined by the Commissioner, in excess of a sufficient distribution for the purposes of Division 7. The excess distribution is deemed to be a dividend paid in the prescribed period of the next succeeding income year.
- Exempt income .. A number of sections of the Assessment Act provide for the exemption or part-exemption of certain types of income, (cf. sections 23, 23AAA, 23AA, 23AB, 23AC, 23A, 23C, 23D, 23E, 23F, 44, 97, 107, 111 and 112A). Exempt income includes exempt dividends and income from gold-mining in Australia and New Guinea.
- Expenditure sections 75 and 76 .. Under sections 75 and 76 of the Assessment Act, deductions are allowed for expenditure incurred by a taxpayer, carrying on a business of primary production, in respect of eradication of pests, destruction of timber, scrub and weeds, preparation of land for agriculture and grazing, draining land, combating soil erosion, erection of fences to exclude live stock from areas affected by soil erosion and to subdivide the land for primary production purposes, construction of dams, etc., construction of levee banks, expenditure on underground pipes (section 75); and expenditure in purchasing wire, netting, posts or other material for fences and for their erection or alteration for protection against animal pests and in connection with land adversely affected by natural mineral deposits (section 76).
- Export market development expenditure .. Expenditure in respect of which rebates are allowable under section 160AC.
- First child .. .. One dependent child under sixteen years of age—maximum deduction \$208.

Gifts	..	..	Deductions under section 78 (1.) (a) for gifts of \$2 and upwards to various specified institutions and to public hospitals, public benevolent institutions and public educational and research institutions.
Housekeeper		..	Person in respect of whom a deduction is allowed under section 82D—maximum deduction \$312.
Husband and wife partnerships			Partnerships were classified as husband and wife partnerships where there were two partners of different sex with the same surnames and residential addresses.
Interest—			
allowed on debentures			Includes all payments of interest on loans that are customarily regarded as debentures or notes.
allowed, total	..		Subject to the modification imposed by section 51AB, interest incurred in respect of money borrowed for the purpose of gaining or producing assessable income.
government loan interest			The interest on Commonwealth Loans issued since 1 January 1940 is taxable at current rates. The taxpayer is entitled, however, to a rebate of tax of 10c for each \$1 of such interest on loans issued before 1 November 1968 included in his taxable income.
other	..	..	Total interest other than government loan interest.
Investment allowance	..		Special deductions under sections 62AA and 62AB.
Investment income	..		The amount that would be the assessable income of a superannuation fund to which section 121D applies if it were an ordinary taxpayer, less the deductions (other than concessional deductions) that would normally be allowable in respect of that income.
Losses	..	..	Losses, as described in section 80 of the Assessment Act, incurred by a taxpayer in any of the seven years preceding the year of income are, subject to certain conditions, allowable deductions. In the case of a business of primary production, the seven-year limit does not apply and under section 80AA such losses are allowed if incurred in the 1957–58 income year or a subsequent year.
section 80 loss carried forward			This item represents the amount of losses which have been accumulated at the end of the year of income and which will rank as allowable deductions in the following year.
section 80 loss recouped			This item represents the losses of previous years which were allowed as deductions in the current year of income.
Medical and hospital expenses recouped			Amounts in respect of payments by a government, public authority, society, association or fund applied in reduction of gross medical and hospital expenses, etc., in determination of deductions under section 82F.

- Net business income .. The total income from business less business deductions (including section 75 and 76 deductions) and investment allowance.
- Net income—  
 individuals .. Total assessable income less total deductions for expenses incurred in gaining assessable income (including sections 62AA, 62AB, 75 and 76).
- partnerships and trusts .. See 1 (b), page 4.
- superannuation funds For funds meeting the tests in sections 23(ja) and 23F, net income comprises investment income, income received from private companies and income other than dividends derived from transactions not at arm's length. For section 121DA funds net income equals taxable income, and for section 79 funds net income is the sum of taxable income and section 79 deductions. Net income for superannuation purposes does not include income exempt under the normal provisions of the Act.
- Net medical expenses .. This item represents gross medical, dental, optical, funeral expenses, etc., less amounts paid or payable by a government, public authority, society, association or fund. In the case of funeral expenses it is subject to a maximum of \$100 per dependant.
- Net tax .. Net tax is ascertained by deducting from the tax otherwise payable, the amount of any rebates arising from the assessment.
- Non-profit company .. A non-profit company is a company which is not carried on for the purpose of profit or gain to its individual members. The terms of the memorandum or articles of association, rules or other documents constituting the company or governing its activities, must prohibit it from making any distribution in money, property or otherwise to its members. Statistics of non-profit companies include assessments of friendly society dispensaries.
- Non-resident dividend income Dividends on which withholding tax is payable.
- Non-taxable companies Companies are non-taxable if their taxable income is less than \$1 or if they are allowed rebates which equal or exceed the tax otherwise payable. Non-profit companies and companies in the capacity of trustees for which statistics are presented in this supplement were non-taxable if their taxable income did not exceed \$416.
- Private companies are non-taxable under Division 7 of Part III. of the Act if they make a sufficient distribution. A sufficient distribution is made if the amount paid in dividends during the prescribed period or such additional period as is allowed by the Commissioner is not less than the excess of the distributable income over the retention allowance. (See Division 7 above.)

Numbers of dependants	For method of counting dependants <i>see</i> 'Dependants'.
Other children	.. Dependent children under 16 years of age other than the child for whom a deduction of \$208 is allowed—maximum deduction for each 'other child' is \$156.
Other personal exertion income	The amount of personal exertion income other than salary and wages included in the taxable income.
Other public securities..	This item consists of— <ul style="list-style-type: none"> <li>(a) bonds, debentures, stock or other securities issued by— <ul style="list-style-type: none"> <li>(i) a State;</li> <li>(ii) a Territory of the Commonwealth; or</li> <li>(iii) a municipal corporation, other local governing body or public authority constituted by or under an Act or by or under the law of a State or Territory of the Commonwealth,</li> </ul> <p>but does not include securities in respect of a loan raised outside Australia and the Territories of the Commonwealth unless there is in force a declaration by the Treasurer, published in the <i>Gazette</i>, that those securities shall be public securities for the purposes of this Act (<i>see</i> 'Commonwealth securities'); and</p> </li> <li>(b) securities issued in respect of a loan to a company, the principal business of which is the supply and distribution, by a system of reticulation, in Australia or a Territory of the Commonwealth, of water, gas or electricity.</li> </ul>
Payments to medical and hospital benefits funds	Deductions allowed under section 82HA.
Primary production income	Taxpayers were identified as having income from primary production if they were eligible to have the averaging provisions applied in their assessments, if they had elected to withdraw from averaging or if they had primary production income for one year only.

Explanation of code numbers for dependant groups—

First digit: number of dependants for whom a deduction of \$312 was allowed.

Second digit: number of dependants for whom a deduction of \$208 was allowed.

Third digit: number of dependants for whom a deduction of \$156 was allowed.

The symbol OXX indicates all other groups of dependants where no deduction at \$312 was allowed; IXX indicates all other groups of dependants where one deduction at \$312 was allowed and XXX indicates all dependant groups where two or more deductions at \$312 were allowed.

\* 'Amount credited' is mainly the tax received on account of assessments of income tax less any refunds of tax under the Audit Act. It does not include deductions of tax instalments made during the year from salaries and wages or deductions made in the year from dividends or interest derived by non-residents on account of withholding tax. It does, however, include amounts of instalment deductions and dividend (withholding) tax applied during the year against tax payable. Revenue collections of income tax shown on page vi of this supplement include all revenue collected during the financial year (including tax instalment deductions and withholding tax deductions) less all refunds of tax and refunds of excess tax instalment deductions and withholding tax deductions.

## PART B. SALES TAX

### EXPLANATORY NOTE

Sales tax returns are required from all manufacturers and wholesalers of goods taxable under the Sales Tax Acts. The statistics in Schedules 6.2 to 6.5 have been compiled from sales tax returns lodged during the year ended 30 June 1970. In most cases the returns lodged related to sales in the month immediately preceding the month of lodgment. The tax on imported goods subject to sales tax which are not imported for sale by wholesale is collected at the port of entry by the Department of Customs and Excise.

### EXPLANATION OF TERMS USED

- Exempt sales . . . . . This item covers the value of sales of goods specifically exempt from sales tax, and of goods, normally subject to tax, sold to exempt bodies or for an exempt use. As returns are not required regularly from persons dealing wholly in exempt goods, the coverage of this item has varied from time to time as exemption has been withdrawn or extended.
- Gross non-taxable sales . . . . . The amount of gross non-taxable sales represents the total value of sales of goods, not being goods exempt from sales tax, upon which tax is not payable for various reasons. For example, in the case of a manufacturer selling goods to a wholesaler who in turn will resell them to a retailer, the manufacturer does not pay tax in respect of this sale, even though the goods may not be exempt from tax, because the tax will be levied at the point of sale from the wholesaler to the retailer. Another example is the sale of raw materials to a manufacturer whose products may be either taxable or exempt.
- Gross taxable sales . . . . . The amount of gross taxable sales represents the total sale value on which sales tax is payable.
- Net taxable sales . . . . . The amount of net taxable sales is the amount remaining after gross taxable sales have been adjusted for discounts, goods returned, bad debts, etc.

\* The difference between these figures and collections—\$494,063,293 for 1968-69 and \$567,359,253 for 1969-70—represents amounts credited to and from other taxes and amounts in transit.

## PART C. PAY-ROLL TAX

### EXPLANATORY NOTES

Pay-roll tax returns are required from employers who pay or are liable to pay wages at a rate in excess of \$400 per week. The scope of pay-roll tax is outlined at page 66 of the 49th Report.

A general exemption of \$1,733.33 per calendar month (\$20,800 per annum) is deducted by the employer from the total wages paid by him. The rate of tax on the balance is 2½ per cent. An employer is required to register for pay-roll tax purposes at the office of the Deputy Commissioner for each State in which he has an establishment at which wages are paid; only one general exemption is allowable irrespective of the number of States in which the employer is registered.

In certain circumstances a rebate of pay-roll tax is available to employers who produce goods for export or earn export income from certain industrial property rights, etc., and who increase their export sales above the average of the first three years of the eight financial years immediately preceding the rebate year. For new exporters there are special provisions to ensure that they are treated on an equitable basis as compared with established exporters.

From 1 July 1960 to 30 June 1968 a rebate of pay-roll tax was available to exporters who increased their export sales above half their export sales in the period 1 July 1958 to 30 June 1960.

The statistics in Schedules 7.1 to 7.3 relate to wages paid by employers subject to pay-roll tax in each of the months of the 1969-70 financial year. The industry classification is approximate, being based on the predominant activity of the taxpayer. As from the 1968-69 financial year, these statistics include certain part-time employees who have been included as a result of the adoption of a new definition of the labour force at the 1966 population census.

### EXPLANATION OF TERMS USED

Export sales	..	..	Up to and including the 1967-68 financial year, these include amounts received in respect of goods exported, consideration payable by persons abroad in respect of industrial property rights and amounts received in respect of certain re-exports. Thereafter, they also include amounts received in respect of certain know-how and professional services.
Gross receipts	..	..	'The gross receipts for the financial year' as defined in section 16A of the <i>Pay-roll Tax Assessment Act 1941-1967</i> .
Half base period exports	..	..	Half the value of export sales made in the period from 1 July 1958 to 30 June 1960.
One-third base period exports			See paragraph 3 above.
Net increase in export sales			The excess of the value of export sales for the financial year over the average annual value of the base period exports plus the value of any export certificates received, less the value of any export certificates issued by the employer during the financial year.

Current year entitlement .. This is the full rebate entitlement (10.5 per cent of the increase in exports for the rebate year over the average annual exports in the base period). If a person's rebate entitlement for a rebate year exceeds his pay-roll tax liability for that year, a rebate may only be allowed up to the amount of tax paid in that year. He is permitted to carry forward the excess up to an amount not exceeding one-half of his pay-roll tax liability for that year and it may be absorbed by his pay-roll tax liability over the next three years.

## PART D. ESTATE DUTY

### EXPLANATORY NOTES

The statistics of estate duty in this part have been compiled from estate duty returns, assessments for which have issued during the year ended 30 June 1970. For the purpose of assessing estate duty the assets of the deceased persons comprise—

- (a) where the deceased was domiciled in Australia at the time of death, his real property in Australia and his personal property whether in or out of Australia; or
- (b) where the deceased had foreign domicile at the time of his death, his real and personal property in Australia.

Estates have been classified by grade of net value of estate, by office of assessment, by State of location of assets, by sex and age group of deceased and by industry. The industry classification indicates the industry in which the deceased was last gainfully occupied during his lifetime. Where the deceased was engaged in more than one industry at death, the estate has been classified according to the predominant industry as disclosed by the assets of the estate. The age of the deceased has been taken as the age on the birthday nearer the date of death.

The amendments to the estate duty law (assented to on 20 May 1970) which provided special concessions for estates of primary producers whose deaths occurred on or after 25 September 1969 are summarized in the 49th Report.

### EXPLANATION OF TERMS USED

- Dutiable value .. This is the amount on which duty is calculated. It is the amount remaining after deducting from the net value of the estate the exempt estate (e.g., gifts to certain charitable institutions), all allowable deductions and the statutory exemption.
- Net value of estate .. This amount represents the gross value of the estate as assessed (including exempt estate) less debts and other liabilities of the deceased person (including income tax and land tax to the date of death).
- Rebates\* .. .. A rebate of estate duty may be allowable—
- (a) where a gift of property which is liable for gift duty is also included in the estate of the donor (section 8 (6.));
  - (b) when duty is paid outside Australia in respect of any part of the estate situate outside Australia (section 8 (7.)); or
  - (c) if the deceased was a beneficiary in an estate (upon which duty is payable or has been paid) of a person who pre-deceased him by not more than 5 years (section 8A).

(Sections mentioned are sections of the Estate Duty Assessment Act.)

\* For details of rural property rebate, in respect of estates of persons who died on or after 25 September 1969, see page 70 of the 49th Report.

Statutory exemption\* . . . The law provides for diminishing statutory exemptions which relieve small estates from duty and provide a measure of discrimination in favour of estates passing to close relatives.

For assessments issued during the 1969-70 financial year, these exemptions were—

- (a) where the whole of the estate passes to the widow, widower, children or grandchildren of the deceased—\$20,000, decreasing by \$2 for every \$8 by which the value of the estate exceeds \$20,000.
- (b) where no part of the estate passes to the above relatives—\$10,000, decreasing by \$2 for every \$8 by which the value of the estate exceeds \$10,000.
- (c) where part only of the estate passes to the above relatives—an amount calculated proportionately under (a) and (b) above.

Special exemptions are also allowed in respect of estates of defence personnel who have died on active service or within three years thereafter from injuries received or diseases contracted while on active service and prescribed personal property held in Australia by certain United States personnel who are in Australia solely for purposes connected with projects of the United States Government.

---

\* For details of statutory exemption in the case of primary producer estates of persons who died on or after 25 September 1969, see page 69 of the 49th Report.

**PART E. GIFT DUTY****EXPLANATORY NOTE**

Gift duty is payable if the value of a gift exceeds \$4,000 or if the aggregate value of all gifts made by the same donor within a period commencing eighteen months before and ending eighteen months after the date of the subject gift exceeds \$4,000. Assessments recorded in grades of dutiable value of assessment up to \$3,999 are for gifts which together with other gifts made in the prescribed period exceeded \$4,000 in value.

The rate of gift duty is determined by the aggregate value of all gifts made in the prescribed period. Where a subsequent gift occasions a change in the rate of duty applied to a previous gift already assessed, an amended assessment is issued. Such amendments, however, are not accounted for in the statistics.
