The Honourable the Treasurer,
Parliament House,
Canberra, A.C.T. 2600

I have the honour to submit to you for presentation to the Parliament 'Taxation Statistics 1973-74', the supplement to the Fifty-third Report of the Commissioner of Taxation which was presented to the Parliament on 24 September 1974.

E. T. CAIN,
Commissioner of Taxation

FOREWORD

This volume of taxation statistics has been prepared as the supplement to the Fifty-third Report to Parliament of the Commissioner of Taxation. It contains statistics relating in general to the financial year 1973-74 for the various taxes administered by the Commissioner of Taxation. The levies and the periods to which the statistics relate are:

Income Tax—

Individuals, partnerships, trust, companies and superannuation funds:
income year 1972-73 (assessed mainly in 1973-74).

Companies, Division 7, 1971-72 income year (assessed mainly in 1973-74).

Amount debited, amount credited and amount outstanding:
financial years 1972-73 and 1973-74.

Sales Tax—financial year 1973-74.

Estate Duty—assessments issued from 1 July 1973 to 30 June 1974.

Gift Duty—assessments issued from 1 July 1973 to 30 June 1974.

Pay-roll Tax—financial year 1973-74.

Australian Capital Territory Stamp Duty and Tax—financial years 1972-73 and 1973-74.

Wool Tax—financial year 1973-74.

Stevedoring Industry Charge—financial year 1973-74.

Tobacco Charge—financial year 1973-74.

Canning-Fruit Charge—financial year 1973-74.

Income tax statistics of partnerships and trusts for the 1971-72 income year which were not tabulated at the time of preparation of "Taxation Statistics 1972-73" are included as an Appendix to this volume.

Discrepancies between totals shown in any table and the sums of their component figures are due to rounding.

**PART A. INCOME TAX
EXPLANATORY NOTES
STATISTICS OF ASSESSMENTS**

The statistics of income tax assessments in this volume have been compiled mainly from 1972-73 income year returns, most of which were assessed in the financial year 1973-74.

The 1972-73 income year statistics of taxable individuals coded to Occupation 1 (*see below*) were obtained from returns assessed between 1 July 1973 and 30 June 1974 while those coded to Occupations 2 and 3 were obtained from returns assessed in the period 1 July 1973 to 30 September 1974.

Statistics of partnership and trusts for the 1971-72 income year, which were not tabulated at the time of preparation of 'Taxation Statistics 1972-73', are shown in an Appendix to this volume and relate to returns assessed in the period 1 July 1972 to 31 August 1973.

The partnership and trust statistics shown at pages 104 to 113 relate to returns for the 1972-73 income year assessed in the period 1 July 1973 to 31 August 1974.

The statistics of companies relate to both taxable and non-taxable returns for the 1972-73 income year assessed in the period 1 July 1973 to 30 November 1974. Statistics of company assessments issued after the closing date of the main tabulation are not tabulated, but the number of such assessments is not significant (*see table below*).

The Division 7 statistics were obtained from certain section 104 assessments made to private companies in respect of their 1971-72 income and issued up to 30 June 1974.

The superannuation fund statistics relate to taxable funds for the 1972-73 income year assessed during the period 1 July 1973 to 30 November 1974.

The numbers and net tax in respect of assessments of taxable individuals and companies that were issued in the 24 months following 30 June 1973 and were not included in the main tabulations are summarized below:

	<i>Number</i>	<i>Net Tax</i>
Individuals—		\$'000
Occupation 1	313,561	221,558
Occupations 2 and 3	40,367	46,700
Companies	5,565	34,369

The main individual tabulations are less complete than usual owing to the omission of about 200,000 assessments of Occupation 1 taxpayers assessed in the period to 30 June 1974. A more complete summary of the major statistical items for assessments issued during 1973-74 is given in Table 6 of the 53rd Report of the Commissioner (*see page 83*).

Division 7 assessments issued up to 30 June 1974 and not accounted for in Schedule 3.34 (4) numbered 150 and the additional tax involved totalled \$0.3 million.

Except for Schedule 5.1, income tax statistics in Part A relate only to original returns and assessments; no adjustment for amendments to assessments is made in these statistics.

The classification 'office' used in this volume indicates the branch office in which the returns were assessed but returns of Northern Territory taxpayers were assessed in South Australia and those of Australian Capital Territory taxpayers in New South Wales.

Individuals

General—Taxable returns of individuals for which statistics are presented in this volume, are those in which the taxable income exceeded \$1,040 and the tax assessed was not extinguished by rebates. However, for the 1972-73 income year, returns of taxpayers who qualified for the age allowance were taxable only if the taxpayer's taxable income exceeded

\$1,326, or, in the case of a married taxpayer, if the combined taxable income of the taxpayer and spouse exceeded \$2,314. In addition, for convenience, assessments of those trusts for which the trustees are liable to pay income tax, have been included with the statistics of individual taxpayers.

Apart from 'Net Income from partnerships and trusts', the item 'Deductions relating to income derived from a partnership' and the details from taxable trusts, referred to above, the statistics of individuals do not otherwise include any amounts relating to partnerships or trusts.

Occupation coding—The occupation classification for taxable individuals adopted for the 1972-73 income year was as follows:

Occupation 1—taxpayers with income only from:

(a) salary and wages, or

(b) salary and wages with net property income less than \$400.

Occupation 2—taxpayers with income only from:

(a) property, or

(b) salary and wages with net income from property of \$400 or more.

Occupation 3—taxpayers with net income or loss from business (including profit or loss on the sale of real estate, shares, etc.).

Industry coding—For the 1972-73 income year taxpayers with income or a loss from a business were coded to the industry from which they derived the greatest business income or incurred the smallest business loss.

Sampling—For the 1972-73 income year the following items in respect of all taxable individuals were completely enumerated:

Number of taxpayers

Taxable income

Net income

Net tax assessed

Total deductions

Total rebates

In addition statistics for all taxable individuals in Occupation 1 and statistics for Australian Capital Territory and Northern Territory assessments were obtained by complete enumeration. Statistics of male taxpayers in Occupation, 2 and 3 were obtained from a stratified sample by grade of net income by fine industry that was drawn from male taxpayers with net incomes of up to \$19,999. The sample included about 50 per cent of the relevant assessments. Statistics of female taxpayers in these occupations were obtained by complete enumeration.

As a result of the expansion of the relevant data for Occupations 2 and 3, the statistics are subject to some sampling error.

Companies

Statistics are given separately for—

Private companies—

Normal tax

Division 7

Public companies

Special section assessments

Non-profit companies

Co-operative companies.

Definitions of the above, with the exception of public companies, are given below under 'Explanation of Terms used'. The term 'public companies', as used in the tables, refers to cases not included in the other four categories.

Companies have been coded to the industry which provided the main source of assessable income.

Superannuation Funds

Statistics of superannuation funds relate to all superannuation funds whose trustees were liable to be assessed and pay tax on all or part of certain income of the funds for the 1972-73 income year, in accordance with the provisions of sections 121CA, 121CB, 121D and 121DA of the Assessment Act.

The statistics of taxable funds are classified by grade of total assets, type of fund and office of assessment. The assets to which these statistics relate do not include life insurance policies.

STATISTICS OF AMOUNT DEBITED, AMOUNT CREDITED AND AMOUNT OUTSTANDING—SCHEDULE 5.1

This schedule summarises all debit and credit postings to the Australian Taxation Office income tax revenue account for the financial years 1972-73 and 1973-74. The amount debited includes:

- tax and additional tax outstanding at the beginning of the year;
- debits raised on original assessments;
- net amended assessments issued;
- net variations in respect of self assessment of provisional tax; and
- additional tax charged for late lodgment of returns, late payment and understatement of taxable income.

The principal credit items are:

- net cash payments including payments in advance; and
- instalment tokens applied to tax.

The schedule is classified by office of assessment. The amounts shown are arrived at after allowance for transfers of amounts between offices where, for example, payments are made in one office in respect of amounts debited in another office.

INCOME AND COST SURVEYS—SCHEDULES 6.1 TO 6.6

The cost survey results included in this supplement were derived from samples of 1971-72 income year returns of taxable individuals and partnerships engaged in the following industries:

- Manufacturing

- Construction

- Transport, Storage and Communication, Finance, Insurance, Real Estate and Business Services.

- Health, Education, Welfare and other Community Services.

- Entertainment, Recreation, Restaurants, Hotels and Personal Services.

In the case of individual taxpayers, the sample was drawn from those taxpayers with income from business and excludes those taxpayers who had been coded to the industry as a result of partnership income only being present. In the case of partnerships the sample was drawn from those partnerships with net income in excess of \$1,999.

EXPLANATION OF TERMS USED

The following notes on various items in the schedules of Part A are included as an aid to the interpretation of the statistics. In some cases, the definitions used may differ slightly from those used in prior years. When comparisons are made between years, regard should be had to definitions of terms for the particular years to which the statistics relate.

Assessment Act means the *Income Tax Assessment Act* 1936–1973, and all references to sections, divisions, etc., in these notes are, unless otherwise indicated, references to that Act.

- Calls and capital paid to mining and oil companies This item includes deductions allowed under sections 77C and 78 (1) (b) for calls paid to certain mining, prospecting and afforestation companies and also deductions authorised by section 77D for share capital subscribed by residents to companies mining or prospecting for oil or other minerals in Australia or Papua New Guinea.
- Commonwealth securities Bonds, debentures, stock or other securities issued under an Act but not including securities issued in respect of a loan raised outside Australia unless there is in force a declaration by the Treasurer, published in the *Gazette*, that those securities shall be Commonwealth securities for the purposes of the Act.
- Concessional deductions Concessional deductions are those allowed under sections 82B to 82JA of the Assessment Act and include deductions for:
Dependants—Section 82B.
Housekeeper—Section 82D.
Medical expenses—Section 82F.
Funeral expenses—Section 82G.
Life insurance, etc.—Section 82H.
Payments to medical and hospital benefits funds—Section 82HA.
Education expenses—Section 82J.
Self Education expenses—Section 82JAA.
Adoption expenses—Section 82JA.
- Contributions .. In relation to a superannuation fund this means contributions from employers, employees and self-employed persons.
- Co-operative company.. A co-operative company is defined in section 117 of the Assessment Act. Broadly, a co-operative company is one in which the number of shares held by one person is limited, the shares are not quoted on the Stock Exchange and the business is carried on primarily for one or more of the following purposes:
(a) the acquisition of commodities or animals for disposal or distribution among its shareholders;
(b) the acquisition of commodities or animals from its shareholders for disposal or distribution;

Co-operative company—*continued*

- (c) the storage, marketing, packing or processing of commodities of its shareholders;
- (d) the rendering of services to its shareholders;
- (e) the obtaining of funds from shareholders for the purpose of making loans to its shareholders to enable them to acquire land or buildings to be used for the purpose of residence or of residence and business.

- Deductions relating to income derived from a partnership** This item includes expenses claimed in returns of individual partners in respect of income derived from a partnership. Expenses claimed separately by individual partners are usually those which are not shared equally by all partners such as motor vehicle and travelling expenses. In some prior years statistics, these deductions have been recorded as a net business loss.
- Deductions relating to property income** This item includes expenses incurred in deriving income from rents, dividends and interest such as rates and taxes on rented properties, repairs, insurance premiums, interest, commission etc.
- Deemed distribution—**
- Section 106 .. See 'Excess distribution'
- Dental expenses** .. Payments to a legally qualified dentist for dental services or treatment or to a qualified dentist or a dental mechanic (registered under a law of a State or Australia) for the supply, alteration or repair of artificial teeth.
- Dependants** Dependants in respect of whom a taxpayer is allowed concessional deductions are classified according to the maximum deduction allowable. For the income year 1972-73:
- Maximum deduction \$364—spouse, parent, parent-in-law and daughter-housekeeper;
 - Maximum deduction \$260—one child, invalid relative and student;
 - Maximum deduction \$208—other children.
- The definition of 'child' for income tax purposes includes an adopted child, step-child or ex-nuptial child of the taxpayer.
- Numbers of dependants were estimated from the amounts allowed as deductions for the maintenance of each class of dependant.
- Depreciation—**
- depreciated value .. Broadly, the depreciated value of a unit of plant is its cost price (as reduced by any balancing charge adjustment) less the total amount of depreciation allowed or allowable in respect of that unit.

Depreciation—*continued*

A balancing charge is, briefly, the excess of any consideration received on the disposal of plant over its depreciated value, but not exceeding the depreciation allowed or allowable on that unit of plant.

A taxpayer is afforded a choice between the inclusion of a balancing charge in his assessable income of the year in which the asset is disposed of, or the deduction of a corresponding amount from the value of the replacement asset or other assets in respect of which he is entitled to depreciation. When the latter course is chosen, the cost or the depreciated value is reduced and depreciation allowances on the asset or assets against which the balancing charge is set-off are calculated on the reduced value.

depreciation allowed

Two methods of calculating depreciation are used—Prime Cost and Diminishing Value. Under the first method, the same amount is allowable as a deduction each year, the amount being a fixed percentage of the cost price of the asset reduced when necessary by any balancing charge adjustment. Under the diminishing value method, a reducing amount is allowable as a deduction each year, the amount being a percentage of the depreciated value of the asset.

The rate of depreciation allowed under the diminishing value method is one and one-half times the rate under the prime cost method.

A special rate of 20 per cent was allowed on the cost of certain assets (excluding motor cars) used wholly and exclusively in agricultural, pastoral, fishing and pearling pursuits.

depreciable assets purchased

For individuals, partnerships and trusts the amount shown represents the cost of depreciable assets purchased less the amount of any balancing charge offset against the cost of those assets. For companies the amount shown is the cost of the assets purchased before offsetting any amount of balancing charge. Where an asset is used partly for private purposes the cost of that asset is for statistical purposes reduced proportionately.

depreciable assets disposed of during year

For companies disposals of assets include any amounts of balancing charges offset against the value of new or existing assets. For individuals, partnerships and trusts, disposals of assets do not include balancing charges offset against the value of other assets. However, purchases of depreciable assets have been reduced to the extent to which balancing charges have been offset against the cost of those purchases.

- Distributable income .. *See* Division 7
- Dividends—
- exempt This item includes dividends paid out of exempt income, or from profits arising from the sale or re-valuation of assets not acquired for re-sale at a profit and dividends which are tax-free by virtue of section 107.
 - included in assessable income This item consists of the gross amount of dividends included in the assessable income and includes assessable bonus shares but excludes exempt dividends.
 - subject to rebate .. Under section 46 of the Assessment Act a rebate of tax is allowed in respect of dividends included in the taxable income of a company which is a resident of Australia.
- Division 7 Under Division 7 of Part III of the Assessment Act, private companies are liable for additional tax if there is an insufficient distribution of taxable income by way of dividends. Tax on the undistributed amount as defined, is imposed at the rate of 50 per cent. The undistributed amount is the amount by which the sum of the dividends paid or deemed to have been paid by the company within the prescribed period (i.e., the period of one year commencing 2 months before the end of the year of income or such additional period as is allowed by the Commissioner) and the retention allowance falls short of the distributable income. The distributable income is, broadly, the amount ascertained by deducting from the taxable income the normal tax payable in respect of that income and the amount of any net loss incurred outside Australia.
- Education expenses .. Deductions under section 82j. Maximum of \$400 allowable for each dependant or child of the taxpayer under 25 years of age for expenses in connection with full-time education. Where two or more taxpayers are entitled to deductions in respect of the one student, the total of such deductions may not exceed \$400 in respect of that student.
- Excess Distribution .. *See* Division 7. This item represents dividends paid by private companies, within the prescribed period or such additional period as is determined by the Commissioner, in excess of a sufficient distribution for the purposes of Division 7. The excess distribution is deemed to be a dividend paid in the prescribed period of the next succeeding income year.
- Exempt Income .. A number of sections of the Assessment Act provide for the exemption or part exemption of certain types of income (cf. sections 23, 23AA, 23AB, 23AC, 23A, 23C, 23D, 23E, 23F, 44, 97, 107, 111 and 112A). Income derived by non-residents wholly outside Australia (section 23 (q)) and premiums received by life insurance companies are not treated as exempt income for statistical purposes Exempt income includes exempt dividends and income from gold-mining in Australia and Papua New Guinea.

Expenditure sections 75 and 76		Deductions allowed under sections 75 and 76 of the Assessment Act for expenditure incurred by a taxpayer, carrying on a business of primary production, in respect of eradication of pests, destruction of timber, scrub and weeds, preparation of land for agriculture and grazing, draining land, combating soil erosion, erection of fences to exclude livestock from areas affected by soil erosion and to subdivide the land for primary production purposes, construction of dams, etc., construction of levee banks, expenditure on underground pipes (section 75); and expenditure in purchasing wire, netting, posts or other material for fences and for their erection or alteration for protection against animal pests and in connection with land adversely affected by natural mineral deposits (section 76).
Export market development expenditure		Expenditure in respect of which rebates were allowable under section 160AC.
Family partnerships	..	Partnerships were classified as family partnerships where partners shared the same surname.
First child	One dependent child under sixteen years of age—maximum deduction \$260.
Gifts	Deductions under section 78 (1) (a) for gifts of \$2 and upwards to various specified institutions and to public hospitals, public benevolent institutions and public educational and research institutions.
Housekeeper	Person in respect of whom a deduction is allowed under section 82D—maximum deduction \$364.
Interest—		
allowed, total	..	Interest incurred in respect of money borrowed for the purpose of gaining or producing assessable income.
government loan interest		The interest on Commonwealth Loans issued since 1 January 1940 is taxable at current rates. The taxpayer is entitled, however, to a rebate of tax of 10c for each \$1 of such interest on loans issued before 1 November 1968 included in his taxable income.
other	Total interest other than government loan interest.
International Agreement credits		These are credits allowed under Double Taxation agreements which provide that, where income is derived in one of the contracting countries, that country has the primary right to tax the income. The other contracting country, the country of residence, has also a right to tax that income but, if it does so, it is required to allow a credit in respect of tax paid in the country of origin of the income.

Investment allowance ..	Special deductions equal in amount to 20 per cent of the cost of new manufacturing and primary production plant allowable under sections 62AA and 62AB respectively. The section 62AA deduction did not apply in respect of manufacturing plant purchased after 3 February 1971 unless the contract for purchase was made on or before that date. This deduction was restored on 14 February 1972, and both sections 62AA and 62AB, were withdrawn with effect from 22 August 1973.
Investment income ..	The amount that would be the assessable income of a super-annuation fund to which section 121D applies if it were an ordinary taxpayer, less the deductions (other than concessional deductions) that would normally be allowable in respect of that income.
Losses	Losses, as described in section 80 of the Assessment Act, incurred by a taxpayer in any of the seven years preceding the year of income are, subject to certain conditions, allowable deductions. In the case of a business of primary production, the seven-year limit does not apply and under section 80AA such losses are allowed if incurred in the 1957–58 income year or a subsequent year.
section 80 loss carried forward	This item represents the amount of losses which have been accumulated at the end of the year of income and which will rank as allowable deductions in the following year.
section 80 loss recouped	This item represents the losses of previous years which were allowed as deductions in the current year of income.
Life insurance and super-annuation payments	Deductions allowable under section 82H—maximum allowable \$1,200 per taxpayer.
Medical and hospital expenses recouped	Amounts in respect of payments by a government, public authority, society, association or fund applied in reduction of gross medical and hospital expenses, etc., in determination of deductions under section 82F.
Net business income ..	The total income from business less business deductions (including section 75 and 76 deductions) and investment allowance. (<i>See also</i> Profit (or loss) from the sale of real estate, shares, etc., and Deductions relating to income derived from a partnership.)
Net income— individuals ..	Total assessable income less total deductions for expenses incurred in gaining assessable income (including sections 62AA, 62AB, 75 and 76).

- superannuation funds For funds meeting the tests in sections 23 (*ja*) and 23F, net income comprises investment income, income received from private companies and income other than dividends derived from transactions not at arm's length. For section 121DA funds net income equals taxable income, and for section 79 funds net income is the sum of taxable income and section 79 deductions. Net income for superannuation purposes does not include income exempt under the normal provisions of the Act.
- Net medical expenses .. This item represents gross medical, chemist, dental, optical, funeral expenses, etc., less amounts paid or payable by a government, public authority, society, association or fund. In the case of funeral expenses it is subject to a maximum of \$100 per dependant.
- Net tax Net tax is ascertained by deducting from the tax otherwise payable, the amount of any rebates or credits arising from the assessment.
- Non-profit company .. A non-profit company is a company which is not carried on for the purpose of profit or gain to its individual members. The terms of the memorandum or articles of association, rules or other documents constituting the company or governing its activities, must prohibit it from making any distribution in money, property or otherwise to its members. Statistics of non-profit companies include assessments of friendly society dispensaries.
- Non-taxable companies Companies are non-taxable if their taxable income is less than \$1 or if they are allowed rebates which equal or exceed the tax otherwise payable. Non-profit companies and companies in the capacity of trustees for which statistics are presented in this supplement were non-taxable if their taxable income did not exceed \$416.
- Private companies are non-taxable under Division 7 of Part III. of the Act if they make a sufficient distribution. A sufficient distribution is made if the amount paid in dividends during the prescribed period or such additional period as is allowed by the Commissioner is not less than the excess of the distributable income over the retention allowance.

Explanation of code numbers for dependant groups—

First digit: number of dependants for whom a deduction of \$312 was allowed.

Second digit: number of dependants for whom a deduction of \$208 was allowed.

Third digit: number of dependants for whom a deduction of \$156 was allowed.

The symbol OXX indicates all other groups of dependants where no deduction at \$312 was allowed; IXX indicates all other groups of dependants where one deduction at \$312 was allowed and XXX indicates all dependant groups where two or more deductions at \$312 were allowed.

PART B. SALES TAX

EXPLANATORY NOTE

Sales tax returns are required from all manufacturers and wholesalers of goods taxable under the Sales Tax Acts. The statistics in Schedules 7.1 to 7.5 have been compiled from sales tax returns lodged during the year ended 30 June 1974 but the collections figures include amounts collected by the Department of Customs and Excise in respect of which sales tax returns are not lodged. In most cases the returns lodged related to sales in the month immediately preceding the month of lodgment. The tax on imported goods subject to sales tax which are not imported for sale by wholesale is collected at the port of entry by the Department of Customs and Excise.

The amount of gross taxable sales represents the total sale value on which sales tax is payable in respect of returns lodged at the Taxation Office and the amount of net taxable sales is the amount remaining after gross taxable sales have been adjusted for discounts, goods returned, bad debts, etc.

PART C. ESTATE DUTY

EXPLANATORY NOTES

The statistics of estate duty in this part have been compiled from dutiable estate duty returns, assessments for which have issued during the year ended 30 June 1974. For the purpose of assessing estate duty the assets of the deceased persons comprise—

- (a) where the deceased was domiciled in Australia at the time of death, his real property in Australia and his personal property whether in or out of Australia; or
- (b) where the deceased had foreign domicile at the time of his death, his real and personal property in Australia.

Estates have been classified by grade of net value of estate, by office of assessment, by State of location of assets, by sex and age group of deceased and by industry. The industry classification indicates the industry in which the deceased was last gainfully occupied during his lifetime. Where the deceased was engaged in more than one industry at death, the estate has been classified according to the predominant industry as disclosed by the assets of the estate. The age of the deceased has been taken as the age on the birthday nearer the date of death.

EXPLANATION OF TERMS USED

- Dutiable value .. This is the amount on which duty is calculated. It is the amount remaining after deducting from the net value of the estate the exempt estate (e.g., gifts to certain charitable institutions), all allowable deductions and the statutory exemption.
- Net value of estate .. This amount represents the gross value of the estate as assessed (including exempt estate) less debts and other liabilities of the deceased person (including income tax and land tax to the date of death).
- Rebates A rebate of estate duty may be allowable—
- (a) where a gift of property which is liable for gift duty is also included in the estate of the donor (section 8 (6.));
 - (b) when duty is paid outside Australia in respect of any part of the estate situate outside Australia (section 8 (7.)); or
 - (c) if the deceased was a beneficiary in an estate (upon which duty is payable or has been paid) of a person who pre-deceased him by not more than 5 years (section 8A).

In respect of estates of primary producers who died on or after 25 September 1969, a rebate of estate duty attributable to rural property may be allowable if the value of the estate (before deducting any statutory exemption) is less than \$250,000 and certain conditions are satisfied (section 9E).

(Sections mentioned are sections of the Estate Duty Assessment Act.)

Statutory exemption . . . The law provides for diminishing statutory exemptions which relieve small estates from duty and provide a measure of discrimination in favour of estates passing to close relatives. Special exemptions apply to primary producer estates of persons who died on or after 25 September 1969.

As at 30 June 1974, the statutory exemptions were:

- (a) where the whole of the estate passes to the widow, widower, children or grandchildren of the deceased person—
 - (i) for qualifying estates of deceased primary producers—\$48,000
 - (ii) for other estates—\$40,000decreasing by \$2 for every \$8 by which the value of the estate exceeds \$48,000 or \$40,000 as the case may be;
- (b) where no part of the estate passes to the above-mentioned relatives—
 - (i) for qualifying estates of deceased primary producers—\$24,000
 - (ii) for other estates—\$20,000decreasing by \$2 for every \$8 by which the value of the estate exceeds \$24,000 or \$20,000 as the case may be; and
- (c) where part only of the estate passes to the above-mentioned relatives—an amount calculated proportionately under (a) and (b) above.

A primary producer estate is one in which—

- (a) the assets consist mainly of rural property, i.e., land used for farming and other specified assets associated with primary production; and
- (b) the estate arises from the death of a person who was domiciled in Australia at the time of his death and who, in the five years prior to death, derived most of his income from a business of primary production carried on by him in Australia.

The statutory exemptions listed above apply to the estates of persons whose death occurred on or after 16 August 1972. For the estates of persons who died before that date the exemptions were half of those shown above.

Special exemptions are also allowed in respect of estates of defence personnel who have died on active service or within three years thereafter from injuries received or diseases contracted while on active service and prescribed personal property held in Australia by certain United States personnel who are in Australia solely for purposes connected with projects of the United States Government.

PART D. GIFT DUTY

EXPLANATORY NOTE

For gifts made prior to 15 August 1972, gift duty was payable if the value of a gift exceeded \$4,000 or if the aggregate value of all gifts made by the same donor within a period commencing eighteen months before and ending eighteen months after the date of the subject gift exceeds \$4,000. Assessments recorded in grades of dutiable value of assessment up to \$3,999 are for gifts which together with other gifts made in the prescribed period exceeded \$4,000 in value. For gifts made after this date, the exemption level is \$10,000.

The rate of gift duty is determined by the aggregate value of all gifts made in the prescribed period. Where a subsequent gift occasions a change in the rate of duty applied to a previous gift already assessed, an amended assessment is issued. Such amendments, however, are not accounted for in the statistics.

PART E. PAY-ROLL TAX AND EXPORT INCENTIVE GRANTS

EXPLANATORY NOTES

Pay-roll tax on wages payable in the Australian Capital Territory and the Northern Territory was levied at the rate of $2\frac{1}{2}$ per cent up to 31 August 1973. For the period 1 September 1973 to 30 June 1974 the rate was $3\frac{1}{2}$ per cent. The general exemption is \$1,733.33 per month, but where an employer is required under a State law to include wages in State pay-roll tax returns, only a proportionate part of the exemption is allowable.

The figures in schedules 10.1 to 10.2 are estimated from a sample of about 80 per cent of the returns lodged in respect of wages paid in each of the months of the financial year 1972-73. The industry classification is approximate, being based on the predominant activity of the taxpayer.

The export incentive rebate that applied in respect of exports for the years 1968-69 to 1970-71 was available to employers who produced goods for export or earned export income from certain industrial property rights, etc., and who increased their export sales above the average of the first three years of the eight financial years immediately preceding the rebate year. This scheme was replaced by a system of direct grants, applicable in respect of export sales in the period from 1 July 1971 to 30 June 1974 and related to the pay-roll tax that would have been payable under the previous Commonwealth pay-roll tax legislation if it had continued at the rate of $2\frac{1}{2}$ per cent.

The classification of pay-roll tax rebates and Export Incentive Grants by principal classes of goods exported was based on the Australian Export Commodity Classification.

EXPLANATION OF TERMS USED

- Export sales These include amounts received in respect of goods exported, consideration payable by persons abroad in respect of industrial property rights, amounts received in respect of certain re-exports and amounts received in respect of certain know-how and professional services.
- One-third base period exports *See* paragraph 3 above.
- Net increase in export sales The excess of the value of export sales for the financial year over the average annual value of the base period exports plus the value of any export certificates received, less the value of any export certificates issued by the employer during the financial year.
- Current year entitlement . . . This is the full rebate (or grant) entitlement i.e., 10.5 per cent of the net increase in export sales. If a person's rebate (or grant) entitlement for an export year exceeds his actual (or notional) pay-roll tax liability for that year, a rebate (or grant) may only be allowed up to the amount of tax paid (or the notional tax calculated) in that year. He is permitted to carry forward the excess up to an amount not exceeding one-half of his actual (or notional) pay-roll tax liability for that year and it may be absorbed by his actual (or notional) pay-roll tax liability over the next three years.
