KEY DATA

The effective management and use of data is a key strategic priority for the Department, as it enables us to identify student need and measure success at an individual student, program, school and whole-of-system level. This is critical to improving educational outcomes for Tasmania, ensuring that resources are distributed according to student need; and programs and policies are developed and implemented appropriately to suit the requirements of all our students.

We are committed to continuing to manage our data in the most effective way possible, and most importantly, to reflect, review, plan and implement initiatives across the state; including professional learning and resource support.

The Department of Education (DoE) is progressing action, in line with the Tasmanian Government's Open Data policy, to add to the data sets being published in the Key Data Set 2021 and beyond.

SCHOOL DATA

School Resource Package Allocations 2020-21, including Fairer Funding Model Allocations and Enrolments

School Resource Package Allocations 2020–21, including Fairer Funding Model Allocations and Enrolments Funding for Tasmanian Government Schools includes two separate elements – Approved Establishment Staffing and the School Resource Package (SRP). The SRP includes three allocations – the Fairer Funding Model (FFM) allocation, facility funding and discrete funding.

From January 2014, the FFM has been used by the Tasmanian Government to allocate funding under what was initially the Better Schools Tasmania Agreement (Gonski), which results in additional funding being available to meet student need.

All schools are provided with a core allocation of funding based on the things all schools have in common. Fairer Funding will then consider things like how many students are enrolled at the school, whether the school offers primary, secondary, combined or senior secondary education, as well as the fact that some schools have students with greater needs than others and require extra funding to ensure that these students get the same opportunities as others. Because of this, the Department looks at each school and considers factors such as the socioeconomic status of the school and the location of the school.

Socioeconomic status and student need is based on the Occupational Education Needs Index (OENI). The OENI is derived from parental background data collected from school enrolment forms. A weight is assigned to each student according to the highest parental occupation group. An average score is then determined for each school. The OENI score will range from zero to one, with a score of one representing the highest level of need. What this means is that, while a school may have an increase in their enrolments compared to another school in any one year, their OENI may be lower, meaning they receive less funding based on student need than a school with a higher level of student need.

From 2013 to 2020, schools would receive a needs-based allocation as part of the FFM based on the highest OENI achieved by the school over this period. As a result of this process, schools would not receive any reductions in their needs-based funding, regardless of changes in their calculated OENI from year to year. This is referred to as a no disadvantage arrangement.

From 2021, the way that the needs-based funding methodology is applied to schools has been updated. Needs-based funding allocations for schools are now based upon a three-year rolling average of OENI for each school. As a result, schools may receive increases or decreases in their needs-based allocations based on changes in their student population.

To assist schools to manage this change in how the methodology is applied, the full impact of this change is being transitioned over a three-year period.

It is noted that any changes in the total needs-based funding pool as a result of the removal of no disadvantage have been fully reinvested through the SRP. This includes increasing the needs-based funding rate.

Schools' locational funding is distributed according to the geographic remoteness of the school using the Accessibility/Remoteness Index of Australia (ARIA+) which is an Australian Bureau of Statistics (ABS) endorsed measure.

Discrete funding includes targeted funding which is dependent on the needs of the students in the school in that particular year, such as the Educational Adjustments for Students with Disability Funding Model and specific funding for extending all Tasmanian secondary schools to Year 12. It can also include various National Partnership funding as well as initiatives funded through the SRP such as the Supporting Students Impacted by Trauma initiative.

In 2021 the methodology used to calculate Launching into Learning (LIL) allocations was updated to align with the same methodology as used to determine Learning in Families Together (LIFT) allocations. This methodology uses the Early Literacy and Numeracy Need (ELN) Index to determine the allocation to schools. This Index uses data from key early years indicators to determine those schools that need the most support in the areas of literacy in the early years, to support improved student outcomes.

The total funding available for schools increased in both 2020 and 2021, therefore all schools received an increase in FFM funding rates per student. Any changes to a school's FFM allocation is the result of changes to student enrolments and student need except as noted above regarding changes to no disadvantage arrangements in needs-based funding.

The table following outlines details of schools' total SRP, the FFM component of the SRP and school enrolments.

Notes:

- 1 FTE stands for Full Time Equivalent.
- 2 FFM stands for Fairer Funding Model.
- 3 In 2021, the FFM allocations were updated to remove historical no-disadvantage limits within the calculations. This has resulted in a redistribution of needs-based funding between schools. Schools are transitioning from no-disadvantage arrangements over a three-year period.
- 4 SRP stands for School Resource Package. Due to delays resulting from the impact of COVID-19 the 2020 SRP, including the FFM calculation, was not finalised until 31 May 2020. The 2020 Final SRP has been updated from those published in the 2019-20 Key Data to reflect the final allocations as at the completion of the 2020 school year and is as at 31 December 2020. The 2020 and 2021 SRP exclude all transactional elements of the SRP e.g. Microsoft Licence Fees and Samsung Telephone Maintenance Fees.
- 5 The movements in SRP from year to year are impacted by funding provided for targeted discrete programs. The movements from 2020 to 2021 have been impacted by an increase in students receiving Educational Adjustments disability funding, and updating the Launching into Learning (LiL) allocation methodology to align with the Learning In Families Together (LIFT) allocation methodology.
- 6 The OENI is updated in August each year for application in the following years' SRP. Historically a no disadvantage arrangement was in place where a school would receive no negative adjustment to their FFM allocation due to changes in their OENI. From 2021 FFM allocations will use a rolling three year average of a school's OENI.
- 7 Remoteness Areas (RAs) divide Australia and States and Territories into five classes of remoteness on the basis of their relative access to services. RAs are based on the Accessibility and Remoteness Index of Australia (ARIA+), produced by the Hugo Centre for Migration and Population Research at the University of Adelaide. RAs are aggregates of SAls that are grouped together based on their average ARIA+ score. For more information on the Remoteness Structure see the Australian Statistical Geography Standard (ASGS): Volume 5 - Remoteness Structure publication.

Notes:

- 1 FTE stands for Full Time Equivalent
- 2 FFM refers to the Fairer Funding Model which is the needs based funding allocation in the School Resource Package. In 2021, the FFM allocations were updated to remove historical no-disadvantage limits within the calculations. This has resulted in a redistribution of needs based funding between schools. Schools are transitioning from no-disadvantage arrangements over a three year period.
- 3 SRP stands for School Resource Package. Due to delays resulting from the impact of COVID-19 the 2020 SRP, including the FFM calculation, was not finalised until 31 May 2020. The 2020 Final SRP has been updated from those published in the 2019-20 Key Data to reflect the final allocations as at the completion of the 2020 school year and is as at 31 December 2020. The 2020 and 2021 SRP exclude all transactional elements of the SRP e.g. Microsoft Licence Fees and Samsung Telephone Maintenance Fees.
- 4 Ashley School is resourced using an agreed FTE and this may differ to the First Term census.
- 5 Early Childhood Intervention Services are resourced in the SRP using August enrolments.
- 6 The OENI is updated in August each year for application in the following years' SRP. Historically a no disadvantage arrangement was in place where a school would receive no negative adjustment to their FFM allocation due to changes in their OENI. From 2021 FFM allocations will use a rolling three year average of a school's OENI.

Notes relating to student enrolments:

School names reflect the most recent name. Does not include support schools.

School counts include students studying at more than one school. Therefore, the sum of students by school is greater than the total for "all schools".

Student enrolment full-time equivalent (FTE) is calculated to six decimals but displayed to one decimal. Components may not add to totals due to rounding.

GRAND TOTAL	655	909	1123	1003

Notes:

This data represents the count of International and Temporary Resident students with confirmed enrolment in Tasmanian Government schools on 31 March in respective calendar years.

“International” refers to Full Fee Paying International Students. Students in this category are primary visa holders with study rights.

“Temporary Resident” refers to “Temporary Resident Program” students. These students are dependent on the visa of a family member.

This data does not include enrolments for students with Permanent Residency or Citizenship in Australia or New Zealand.

Counts of students in the category “International - Long Term” refer to International students with enrolment of more than two consecutive terms, or equivalent length.

Counts of students in the category “International - Short Term” refer to International students with enrolment of two consecutive terms or fewer, or equivalent length.

Counts of students may differ from previously reported figures due to:

improved data capabilities, systems processes and accuracy,

the use of categories to further differentiate between “Short Term” and “Long Term” students, and

the use of a consistent census date for international student enrolments across the school sector.

The significant decrease in the count of both Long and Short Term International students from 2020 to 2021 can likely be attributed to the restriction on international arrivals to Australia due to the COVID-19 pandemic.

STUDENT ASSISTANCE SCHEME (STAS)

The Student Assistance Scheme (STAS) provides assistance for low-income families towards the cost of levies for students enrolled from Kindergarten through to Year 12. The provision of assistance within non-government schools is in accordance with procedures as determined by Independent and Catholic Schools.

Funding for the State Government Student Assistance Scheme is incorporated into the overall Students First funding pool and distributed to schools as part of the needs based funding arrangements.

During the 2020 year in response to COVID-19 the Tasmanian Government waived all 2020 Tasmanian Government School Levies.

Number of students receiving STAS Assistance (including proportion across education sectors):

Notes:

A student is considered to be 'Indigenous' if he or she identifies as being of Aboriginal and/or Torres Strait Islander origin. The term 'origin' is considered to relate to people's Australian Aboriginal or Torres Strait Islander descent and for some, but not all, their cultural identity. This information is collected from student's parents or guardians via enrolment forms for students.

Notes:

A student is considered to have a Language Background Other Than English (LBOTE) if either the student or a parent/guardian speaks a language other than English at home. Non-LBOTE students includes some students for which status is not stated. This information is collected from students' parents (or guardians) via enrolment forms.

Notes relating to student enrolments:

School names reflect the most recent name.

School counts include students studying at more than one school. Therefore, the sum of students by school is greater than the total for "all schools".

Student enrolment full-time equivalent (FTE) is calculated to six decimals but displayed to one decimal. Components may not add to totals due to rounding.

Notes relating to student enrolments:

School names reflect the most recent name.

Student enrolment full-time equivalent (FTE) is calculated to six decimals but displayed to one decimal. Components may not add to totals due to rounding.

Enrolment data is as at Census 2 of the Year reported.

Notes relating to student attendance:

Attendance rates are reported for students in Prep to Year 12 (Year 12 includes Year 13).

In 2020 attendance rates were significantly affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6.

Attendance rates for:

Prep to Year 6 and Year 7-10 includes half day absences to align with the National Standards for Student Attendance Report.

Year 11 and 12 (Year 12 includes Year 13) are calculated from the session minutes recorded by schools and colleges in EduPoint.

Attendance rates for fewer than 5 students are not reported (NR).

Attendance rates are not reported for the Tasmanian eSchool or the Ashley School.

Reported figures may differ from previous years due to rounding errors.

STATE ATTENDANCE AND SUSPENSION RATES

Attendance Rates

ATTENDANCE RATE	2018	2019	2020
Annual Average daily attendance rate (proportion of students present)	89.7%	89.3%	86.3%

Notes:

Data pertains to students in Prep to Year 10.

2020 attendance rates were affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6.

School Attendance Rates are based on the total (aggregated) attendance rate:

Rates are based on the number of actual student days attended during the year as a percentage of the number of possible student days attended. Data pertains to students in Prep to Year 10.

Historically, definitions and methods of collection have varied across states and territories. However, new *National Standards for Student Attendance Data Reporting* have been agreed by education jurisdictions. Tasmanian attendance figures include half day absences and suspensions as absences to align with the national standards.

2020 attendance rates were affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6.

Further technical notes on the attendance rates are available at – <https://myschool.edu.au/glossary/>

2020 average daily attendance rates by student year level (%)

ATTENDANCE RATE	PREP	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	YEAR 6	YEAR 7	YEAR 8	YEAR 9	YEAR 10	YEAR 11	YEAR 12

Notes:

Prep to Year 10 attendance figures include half day absences to align with the National Standards for Student Attendance Report.

Year 11 and 12 attendance figures are calculated from the session minutes recorded by schools and colleges in EduPoint.

In 2020 attendance rates were affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6.

Student Suspensions

SUSPENSIONS	2018	2019	2020
Proportion of students suspended	5.1%	5.2%	5.0%

Notes:

The proportion of students includes all students in Kindergarten to Year 12 enrolled in DoE schools, with the exception of students enrolled in the Ashley School.

In 2020 suspensions were affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6.

Due to calculation method proportions may not add to 100%.

Reported figures may differ from previous years due to rounding errors.

2020 SUSPENSIONS BY YEAR LEVEL	PREP	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	YEAR 6	YEAR 7	YEAR 8	YEAR 9	YEAR 10	YEAR 11	YEAR 12
Proportion of students suspended	0.4%	1.1%	2.0%	2.9%	3.0%	3.9%	5.3%	12.0%	13.9%	13.1%	10.9%	1.8%	1.2%

Notes:

The proportion of students includes all students enrolled in the year levels reported, with the exception of students enrolled in the Ashley School.

In 2020 suspensions were affected by the COVID-19 lockdown for 10 weeks from Term 1 Week 7 to Term 2 Week 6 .

2020 proportion of students suspended for reasons that are unacceptable behaviours under the Education Act 2016

REASONS THAT ARE UNACCEPTABLE BEHAVIOURS UNDER THE EDUCATION ACT 2016	PROPORTION OF STUDENTS SUSPENDED	REASONS THAT ARE UNACCEPTABLE BEHAVIOURS UNDER THE EDUCATION ACT 2016	PROPORTION OF STUDENTS SUSPENDED
Any other behaviour that a Principal determines to be unacceptable behaviour	0.5%	Bullying or cyberbullying	0.2%
Behaviour or actions that cause, or are likely to cause, injury to persons or damage to property	0.2%	Contravening school rules and policies	0.5%
Behaviour that is detrimental to the health, safety or welfare of the staff or other students	2.4%	Discrimination	0.1%
Behaviour that is likely to bring that school into disrepute	0.2%	Disobedience of instructions which regulate the conduct of students	1.6%
Behaviour that is likely to impede significantly the learning of the other students of that school	0.3%	Harassment or stalking	0.1%
Behaviour that is likely to put a person at risk of harm	0.1%	Illegal behaviour	0.4%
		Sexualised behaviour	0.1%
		Threatening behaviour	1.0%
		Unsociable behaviour	0.6%

Notes:

The sum of the proportion of students by reason will be more than total proportion of students suspended due to students having more than one suspension for different reasons.

The proportion of students includes all students in DoE schools, with the exception of students enrolled in the Ashley School.

The presented data are descriptive statistics of the Centre and not performance indicators.

Data analysis is based on all valid information for children included in the Intake Forms (participant details).

This is not intended to be a representation of each program participant in the Census month.

Number of visits is based on weekday visits only.

CFC data is collected twice yearly for the period of a single month. (May & November).

The 2020 attendance in each centre has been impacted by COVID-19.

EDUCATIONAL TYPE	2019	2020	2021
Secondary (Year 7 to 10)	23.2	23.0	22.7

Notes:

Class size does not reflect staffing and resources allocated to individual classes.

Schools make local decisions on class sizes that best suit their needs.

Class size is based on home groups for Kindergarten to Year 6.

Secondary school students are not organised into classes which exclusively undertake a complete education program, therefore either home group or English classes are used for class size calculations, depending on the school's class organisation.

Year 11/12 school students are not organised into classes which exclusively undertake a complete education program, there is also no standard class across schools which can be used as a measure ie. there is no English class as per secondary students.

Does not include the Tasmanian eSchool.

Information based on Census 1, class size is not calculated for Census 2.

SCHOOL SATISFACTION

School Satisfaction information is an important element of school improvement planning. School satisfaction data was collected from parents and staff in all Tasmanian government schools. 2019 was the final year of Student Satisfaction recording due to the introduction of the Student Wellbeing measurement.

SATISFACTION LEVELS	2018	2019	2020
Student	83%	85%	-
Parent	93%	93%	94%
Staff	93%	93%	93%

Notes:

Satisfaction levels are determined based on respondents who agreed or strongly agreed, as a proportion of all those who expressed agreement or disagreement, averaged across the nationally agreed question set.

National questions include 12-16 items, inclusive of multiple aspects of school satisfaction. This measure replaces previous measures based on a single question, to increase validity and reliability of data in monitoring satisfaction over time.

STUDENT WELLBEING

Student Wellbeing information is an important element of school improvement planning. Student Wellbeing data was collected from students in all Tasmanian government schools, for the first time in 2019.

DOMAINS	2019	2020
1. Loved and Safe – School Climate	75%	76%
2. Learning – Cognitive Engagement	83%	82%
3. Positive Sense of Culture and Identity – School Belonging	73%	73%
4. Learning – Emotional Engagement with Teachers	95%	96%

Notes:

Wellbeing levels are determined based on respondents who indicated medium or high wellbeing, as a proportion of all responses across the questions relating to each Domain.

In 2020, Tasmania first ran the survey in Term 1 with participation impacted by COVID-19. To support schools, Tasmania provided the opportunity for a further collection period in Term 3 2020. This report contains the 2020 Term 3 collection data only.

SUPPORTING STUDENT NEEDS

The Early Childhood Intervention Service (ECIS) is a statewide service working in partnership with very young children (0–4 years) and their families, maximising developmental achievements of young children with developmental disabilities and delays. While ECIS is managed through the Department's Learning Services, ECIS is a service for families with children younger than the compulsory school age.

SUBTOTAL TARGETED SUPPORT FTE	254.00	260.70
TOTAL SUPPORTING STUDENTS	570.80	600.05

Notes:

- 1 Note that this FTE does not include staff purchased by schools through their School Resource Package (SRP) such as Teacher Assistants.
- 2 The increase in Teaching FTE is as a result of additional students receiving funding under the Educational Adjustments funding model in 2021. There has been an increase of approximately 600 students receiving funding in 2021.
- 3 The Teaching FTE relates to support services provided by the Department centrally and that work with students across all schools. This FTE includes supports for a number of items such as teaching FTE for the Autism Classrooms, central hearing and vision staff working across schools, and other targeted support FTE. The decrease in Teaching FTE relates to two fixed term roles for a Statewide Early Education Manager and a Statewide Autism consultant finishing in 2020 and the funding for a 0.6 FTE structural role has been removed and used as part of funding Educational Adjustments.
- 4 The decrease in Professional Support Staff relates to a decrease of one Speech Pathologist, due to the cessation of a fixed term project position, and a decrease in Psychologists partially offset by an increase in Social Workers for the 2021 year.
- 5 The increase in FTE for Nurse Education is mainly attributable to a 2019-20 Budget Initiative for an additional 8.00 Nurses in Colleges (with 4.00 FTE commenced in 2020 and the additional 4.00 FTE commencing from 2021) and 2.00 FTE Nurse Clinical Educator positions commencing from 2021.
- 6 The FTE relates to re-engagement program support that help with the re-engagement in schooling of disengaged students. The FTE specifically relates to The TIER 4 Programs run as part of the Governments Student Engagement and Flexible Learning Initiative. The increase in FTE is due to a re-alignment of the overall re-engagement program budget from 2021. This has included an increase in fixed term teaching staff.

SUBTOTAL OTHER SUPPORT FUNDING	31,404,501	34,866,004
GRAND TOTAL SUPPORTING STUDENTS	115,236,256	127,353,062

Notes:

- 1 This includes all funding for supports such as staffing and targeted funding provided to schools and students through the Educational adjustments funding model and the Minister's Disability Taskforce. The increase in funding for 2021 relates to an approximate additional 600 students receiving funding this year.
- 2 This funding includes supports for a number of items such as transport, central hearing and vision staff working across schools, speech aide program and other targeted supports. The increase in funding relates to additional non teaching staffing for disability programs (which includes support staff).
- 3 The decrease in funding for Autism Classrooms relates to non salary funding being reallocated to Educational Adjustments funding.
- 4 The increase in Professional Support Staff funding is as a result of indexation of staff salaries.
- 5 The increase in funding for Nurse education is mainly attributable to a 2019-20 Budget Initiative for an additional 8.00 Nurses in Colleges (with 4.00 FTE commenced in 2020 and the additional 4.00 FTE commencing from 2021) and 2.00 FTE Nurse Clinical Educator positions commencing from 2021.
- 6 This funding is aimed at supporting students Impacted by Trauma and these supports are provided directly to schools. As part of the 2020-21 state budget, an additional \$1 million was allocated to support individual students impacted by Trauma. An additional \$0.372 million has been allocated to support individual students in 2021 as well.
- 7 This figure represents relevant program allocations for the TIER 4 Programs run as part of the Government's Student Engagement and Flexible Learning Initiative and Ashley school. This does not reflect the total re-engagement funding allocations. The increase in funding for 2021 is in part due to the realignment of the re-engagement program budget.
