

## ***Taxation statistics 2009–10***

### **Table 3: Personal tax**

#### **Selected items, by state/territory and postcode<sup>1</sup>, for taxable individuals<sup>2</sup>, 2009–10 income year<sup>3</sup> Part E: Western Australia**

##### **Notes:**

\* The symbol 'n.a.' used in this publication means not applicable or not available.

\* Totals may not equal the sum of components due to rounding.

\* In order to meet privacy regulations, the following measures have been applied.

(a) Number indicators shown may have been rounded to the nearest multiple of 5.

(b) Statistics for some items may not be included in some tables.

1 Residential postcodes are as stated on the personal tax return forms.

2 With the exception of the statistics reported under the 'Non-taxable individuals' column, all other statistics reported refer to taxable individuals only. 'Taxable individuals' are personal (or individual) taxpayers with net tax payable greater than \$0.

3 The statistics for the 2009–10 income year were sourced from 2010 individual income tax returns processed by 31 October 2011. The statistics are not necessarily complete. For further information please refer to the 'Source of personal tax statistics' section in the 'Personal tax' chapter of *Taxation statistics 2009–10*.

4 Refers to personal (or individual) taxpayers with net tax payable equal to \$0 (no amount of net tax charged).

5 Mean (or average) taxable income in this table is calculated by dividing taxable income by the number of taxable individuals.

6 This is the calculated sum of Franking credit (item 11, label U) and Share of franking credit from franked dividends (item 13, label Q).

7 Mean net tax in this table is calculated by dividing net tax by the number of taxable individuals.

8 From the 2000–01 income year onwards the calculation of net tax ratio (or effective rate of tax) is changed to: net tax / taxable income.

9 The 'Total income or loss' reported in this table is based on the total calculated by the Tax Office during tax return assessment and therefore will not necessarily agree with the sum of component items (the amounts of different types of income) which taxpayers claim on their annual income tax returns.

10 Sum of all deductions declared on the return (items D1 to D16).

11 Includes data for unknown/invalid postcodes and postcodes with less than 50 taxpayers.
