

## ***Taxation statistics 2009–10***

### **Table 7: Fund tax**

#### **Fund contributions of individuals who lodged an income tax return , by taxable income<sup>2</sup>, 2009–10 income year<sup>1</sup>**

##### **Notes:**

\* The symbol 'n.a.' used in this publication means not applicable or not available.

\* Totals may not equal the sum of components due to rounding.

\* In order to meet privacy regulations, the following measures have been applied.

(a) Number indicators shown may have been rounded to the nearest multiple of 5.

(b) Statistics for some items may not be included in some tables.

1 Please refer to the 'Source of fund statistics' section in the 'superannuation funds' chapter of *Taxation statistics 2009–10*.

2 The 'Taxable income' referred to here refers to the 'Taxable income or loss' item of the annual individual income tax return.

3 The 'employer contributed amounts' are taken from member contribution statements. Generally this represents the normal 9% super guarantee amounts and any additional salary sacrifice contributions and is subject to fund tax.

4 The 'personal contributed amounts' are taken from member contribution statements. Generally this represents contributions made to super from after personal tax income. These are not subject to fund tax except where the fund is informed that the individual will be claiming the contributions as a personal tax deduction. Those contributions made from after personal tax income for which a deduction is not claimed are potentially eligible for the super co-contribution scheme.

5 The 'personal superannuation contributions' are taken from individual income tax returns. This represents contributions to super for which certain individuals are able to claim a personal tax deduction.
