

Taxation statistics 2009–10

Table 2: Energy grants schemes

Energy grants credits scheme (off-road) – quantity and value of claims paid, by industry/operation, 1996–97 to 2010–11 financial years¹

Notes:

- * The symbol 'n.a.' used in this publication means not applicable or not available.
 - * Totals may not equal the sum of components due to rounding.
 - * In order to meet privacy regulations, the following measures have been applied.
 - (a) Number indicators shown may have been rounded to the nearest multiple of 5.
 - (b) Statistics for some items may not be included in some tables.
 - * On 1 July 2006, the EGCS closed for diesel fuel and was replaced by fuel tax credits. The 12 month sunset period under EGCS for claiming diesel fuel purchased before 1 July 2006 ended on 1 July 2007. You can no longer register or claim for diesel fuel under the EGCS.
 - * The data for the year 2003–04 and onwards in this table has been updated.
-
- 1 Please refer to the 'Source of fuel scheme statistics' section in the 'Fuel schemes' chapter of *Taxation statistics 2009–10*.
 - 2 Rebates paid to the different industry/operation, refers to rebates paid for diesel fuel use only.
 - 3 From 1 July 2003, what was previously referred to as "Residential", comes under "Generating electricity".
 - 4 The diesel fuel rebate scheme was amended on 1 July 2000. It was extended to provide a rebate for diesel and like fuels purchased and used by eligible businesses in the rail and marine transport industries.
 - 5 From 1 July 2003, "Aged homes", "Nursing homes", "Hospitals" and "Other medical" were combined into one activity called "Nursing & medical".
 - 6 As part of the diesel fuel rebate scheme extension, all businesses undertaking eligible activities can receive a full rebate of the customs and excise duty paid on like fuels, aside from diesel. The rebate paid to the 'like fuels' category is the sum of all rebates paid to all industries/operations that used like fuels.
 - 7 Others include data with less than 5 claimants. This is for confidentialising the data as per privacy requirements.
