Notes:

* In order to meet privacy regulations, the following measures have been applied.

(a) Number indicators shown may have been rounded to the nearest multiple of 5.

(b) Statistics for some items may not be included in some tables.

- 1 The 1996–97 to 2008–09 income year statistics reported in this table may not match the statistics reported in previous editions of *Taxation statistics* because the statistics for these income years have been updated in this edition. Statistics for individuals, funds and companies for income tax returns processed by 31 October 2011.
- 2 The statistics for the 2009–10 income year were sourced from 2010 individual, company and fund income tax returns processed by 31 October 2011. The statistics are not necessarily complete. Therefore, caution should be exercised in making comparisons between the statistics for the 2007–08 and prior income years. For further information please refer to the 'Source of CGT statistics' section in the 'Capital gains tax' chapter of *Taxation statistics 2009–10*.
- 3 Taxable individuals, refers to individual taxpayers with net tax greater than \$0. Non-taxable individuals have net tax equal to zero.
