

Taxation statistics 2009–10

Table 17: Personal tax

Taxable income compared to total income, by ranges, for Taxable individuals¹, 2009–10 income year²

Notes:

* The symbol 'n.a.' used in this publication means not applicable or not available.

* Totals may not equal the sum of components due to rounding.

* In order to meet privacy regulations, the following measures have been applied.
(a) Number indicators shown may have been rounded to the nearest multiple of 5.
(b) Statistics for some items may not be included in some tables.

1 Taxable individuals' are personal (or individual) taxpayers with net tax payable greater than \$0.

2 The statistics for the 2009–10 income year were sourced from 2010 individual income tax returns processed by 31 October 2011. The statistics are not necessarily complete. For further information please refer to the 'Source of personal tax statistics' section in the 'Personal tax' chapter of *Taxation statistics 2009–10*.

3 The 'Total income' reported in this table is based on the total calculated by the Tax Office during tax return assessment and therefore will not necessarily agree with the sum of component items (the amounts of different types of income) which taxpayers claim on their annual income tax returns.
