

## ***Taxation statistics 2009–10***

### **Table 6: Capital gains tax**

#### **Capital gains and small business concessions by calculation method with capital losses applied by entity type, 2000–01 to 2009–10 income year<sup>1,2,3</sup>**

**Notes:**

\* The symbol 'n.a.' used in this publication means not applicable or not available.

\* Totals may not equal the sum of components due to rounding.

\* In order to meet privacy regulations, the following measures have been applied.  
(a) Number indicators shown may have been rounded to the nearest multiple of 5.  
(b) Statistics for some items may not be included in some tables.

1 The statistics for the 2000–01 to 2009–10 income year were sourced from CGT schedules with a related income tax return processed up to 31 October 2011. The statistics are not necessarily complete. For further information please refer to the 'Source of capital gains tax statistics' section in the 'Capital gains tax' chapter of *Taxation statistics 2009–10*.

2 The statistics include taxable and non taxable entities.

3 Not all entities complete a CGT schedule. For example, companies and funds with total capital gains less than \$10,000 are not required to complete the form. Therefore, the following statistics cannot be directly compared to the statistics on net capital gains reported from income tax returns.
