

Taxation statistics 2009–10

Table 5: Charities and deductible gifts

Private ancillary fund donations and distributions, 2001-02 to 2009-10 financial years^{1,2}

Notes:

* The symbol 'n.a.' used in this publication means not applicable or not available.

1 The data in these tables will change slightly over time as outstanding returns are keyed in or other information comes to attention.

2 Data for each financial year includes data processed up to 31 October of the following year.

3 In the 2008-09 financial year the value of donations to private ancillary funds decreased, in part because of a large one-off donation that was made in the 2007-08 financial year. If this one-off donation is not taken into account there would have been a smaller decrease in the value of donations.

4 For 2007-08, the cultural organisations category distributions decreased by 75.5% which is mainly attributable to there being a significant one-off distribution during the 2006-07 financial year.

5 For years prior to 2006-07, data for four categories of specific listed DGRs, ancillary fund DGRs, not a DGR, not a DGR but a TCC came combined in other. For 2007-08, data has been split into the four respective categories.

6 Includes donations to 'family', 'defence', 'industry, trade and design', 'philanthropic trusts' and specifically listed DGRs that were not able to be otherwise classified.
