Introduction

PSMA's Administrative Boundaries dataset is Australia's most comprehensive national collection of boundaries including government, statistical and electoral boundaries. The dataset contains boundaries in six themes: Australian Bureau of Statistics (ABS) boundaries, electoral boundaries, state and territory boundaries, local government areas, suburbs/localities, and town points. Some of the themes, such as the ABS, include further layers of data to support a wide range of analysis and segmentation activities. For more information, please refer to the Administrative Boundaries Product Description.

Document Purpose

This document provides a description of the issues, changes, features, updates and overarching statistics relating to the applicable data release. This document should be read in conjunction with the relevant Product Description.

Audience

This document is made available to PSMA staff, data contributors, direct clients and end users. It is intended to be used by business managers, data managers and analysts as a guide and reference to understanding the content and variations within a data release.

Future Considerations

The Australian Bureau of Statistics (ABS) will be undertaking the 2016 Census on 9 August 2016 and plan to release a revision of *ASGS Volume 1 – Main Structure and Greater Capital City Statistical Areas* in July prior to the Census. Subject to the data being made available by mid-July, PSMA intends to include the 2016 ABS data in the August 2016 release of Administrative Boundaries. Currently there are eight layers in the ABS Theme including the ABS Mesh Blocks (MB) 2011 layer, which will be updated by the ABS. PSMA will restructure the ABS Theme and the layers in order for the data to be easily identified with the release of the 2016 data. The following changes to the ABS Theme are proposed for the August release. The new layer will be known as “2016 Mesh Blocks and Statistical Areas”.

Dataset	Theme	Layer
AdminBounds	ABS Bounds 2011	2011 ABS Mesh Blocks
		2011 Indigenous Areas
		2011 Indigenous Locations
		2011 Indigenous Regions
		2011 Remoteness Area
		2011 SEIFA
		2011 Significant Urban Areas
		2011 Urban Centre and Locality - Section of State
	ABS Bounds 2016	2016 ABS Mesh Blocks and Statistical Areas

It is understood that the 2016 ABS data will have the same structure as the 2011 data and on the following page are the proposed additions to the current data model to accommodate the changes.
