## Notes

1. Additional information on legislation, Cashless Debit Card, location, data confidentialisation and data caveats can found in Cashless Debit Card metadata update.
2. \* Table 1 only shows CDC participants actively receiving a trigger payment by location. Participants not receiving a trigger payment due to temporary or permanent cancellation, transition between payment types or having recently aged out of eligibility for their CDC region at the time of data extraction are not included in the data.
3. \*\*In Table 1, JobSeeker Payment replaced Newstart Allowance on 20 March 2020 as the main working age payment for those aged 22 years to Age Pension age. Recipients who would have previously claimed Newstart Allowance, Bereavement Allowance or Sickness Allowance will now claim JobSeeker Payment.
4. \*\*\*In Table 4, the program regions represent where a person has reported to be living at the time data was extracted. As a result, numbers may shift between regions each month. All other program regions in this document represent where a person was living when they were placed on the program.
5. \*\*\*\* 'Withdrawn' also includes applications from participants who were no longer eligible for the exit process at the time of decision, for reasons such as no longer being on the program.
