Community panels (Section 124PK of the Act), or community bodies, operate in the Ceduna SA region and the East Kimberley WA region, with the East Kimberley region having two community panels operating in Kununurra and Wyndham. The number of applications and the number of decisions may not be the same as sometimes people withdraw their application, or a decision may not have been made on an application at the time of extracting the data.

## Notes

Additional information on legislation, CDC, location, data confidentialisation and data caveats can be found in the CDC metadata update.

1. Table 1 only shows CDC participants actively receiving a trigger payment by location. Participants not receiving a trigger payment due to temporary or permanent cancellation, transition between payment types or having recently aged out of eligibility for their CDC region at the time of data extraction are not included in the data.
2. Participants in the Cape York region were transitioned from Income Management onto the CDC based on referral arrangements managed by the Family Responsibilities Commission (FRC).
3. Income Management participants in the Northern Territory are now able to transition to the CDC if they choose to do so.
4. Individuals in the 'other payments' column are not on a category P payment and may have volunteered to be on the CDC program (section 124PH of the Act), or placed on by referral from the FRC.
5. 'Not Eligible to Apply' - These applications were submitted by individuals who are not on the CDC program, or who have volunteered and may exit at any time, or who are under referral from the FRC and therefore not eligible to exit the program in this way.
6. 'Withdrawn' also includes applications withdrawn due to participants no longer being eligible for the exit process at the time of decision, for reasons such as no longer being on the program.
